## "WE'RE RICH AGAIN" SPIRITED

### COMEDY OF NEEDY ARISTOCRATS

Studded with ridiculously funny situations, RKO-Radio's breezy comedy, "We're Rich Again," will come to the Oasis theatre Sunday and Monday. The hilarious story revolves around a demure little country girl guest of aristocratic city cousins, who arrives to find them busily occupied in dodging bill collectors and at the same time preparing for the wedding of the older daughter to a rich catch. The dominant member of this household is a hard-riding, polo-playing grandmother who saves the day on the too-numerous occasions when process servers threaten to disrupt the wedding plans.

Arabella, the cousin from West Texas, takes affairs into her own hands and thereby keeps the excitement at a high tension throughout her brief but eventful visit.

The chaos that results from her intervention and the hilarious situations that develop in the ironing out of the family affairs, make for continuous laughter and sustain the interest in the final outcome.

The cast includes Edna May Oliver, Billie Burke, Marion Nixon, Reginald Denny, Joan Marsh, and Larry "Buster" Crabbe.

## HOME DRESSMAKERS AIDED

### BY NEW PATTERN BULLETIN.

How to make and how to use a guide pattern for home sewing is the subject of a new bulletin just issued by the home economics extension service of Oregon State college for free distribution to home-makers of Oregon.

A guide pattern is a foundation pattern designed to fit an individual figure, from which correctly fitting patterns of more complicated design can be made. It is cut of firm muslin and fitted like a dress, and has been so constructed as to take into consideration any irregularities of the figure.

"A guide pattern for clothing construction, like a basic recipe in food preparation, can be adapted to meet many needs," the bulletin says. "Each is invaluable because it makes for freedom and independence and thrift in homes where clothing construction and food preparation are essential in the economy of the family."

Use of the guide pattern has been taught for a number of years as a part of the adult education program carried on by home demonstration agents and clothing specialists of the home economics extension service. Its value has been demonstrated, especially for those whose figures are not "average" in size, weight or physical development, or those who wish to make over clothing.

Copies of this new bulletin, "A Guide Pattern for Home Sewing," may be had upon request from the college or from home demonstration agents.

## More Red Clover Harvested.

HILLSBORO—More red clover seed was harvested in Washington county this year than in any of the past five years, reports County Agent W. F. Cyrus. This increase was not due to heavier yields per acre but to larger acreage, Mr. Cyrus says. Prices are higher than at any time since the start of the depression.
