Objection Justified.

In order for wheat growers in the Inland Empire to ship their wheat to the Mid-West drought regions, a rail rate reduction is necessary, but a request for such action has been turned down by traffic executives and railroads. The farmers are disappointed and in objecting to such an arrangement, are trying to ship their wheat to the needy districts by boat.

Following the action by the railroads the East Oregonian made the following comment:

"In Canada the railroads have reduced rates 35 per cent, according to a story in Ponka (Alberta) Journal. The reduced rates apply on both the Canadian National and the Canadian Pacific. The story sets forth that it is hoped to send 50 million bushels of low grade wheat into the United States for feeding purposes.

"If the Canadian roads can thus

reduce rates during an emergency why should not the American roads do likewise. The Canadian roads will derive much revenue from this new business. The American roads could have had the same opportunity for new revenue but they refuse it."

Why Not a Gymnasium?

The need for a gymnasium was demonstrated more forcibly last Saturday night when a visiting basketball team found it necessary to dress in a room at the hotel, because of the intense cold. The team had come from a town with much smaller population than Hermiston and has a gym more than adequate for its needs.

We hang our heads in shame when we must point to the auditorium as our gymnasium and auditorium. All nearby towns have adequate school buildings with gymnasiums, while Hermiston continues to let her school enrollment outgrow the school building, and visiting athletic teams scoff at our feeble efforts in supplying a gymnasium.

It is high time we were seeing what can be done about it.

CHRISTIAN SCIENCE CHURCHES

"LIFE" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, January 20.

The Golden Text was, "The life was manifested, and we have seen it, and bear witness, and show unto you that eternal life, which was with the Father, and was manifested unto us" (I John 1:2).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Fruit is the spirit, and the narrow is the way, which leadeth unto life" (Matt. 7:14).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "We all must earn that Life is God. Ask yourself: Am I living the life that approaches the supreme good? Am I demonstrating the healing power of Truth and Love? If so, then the way will grow brighter 'unto the perfect day.' Your fruits will prove what the understanding of God brings to man." . . . "The way through which immortality and life are learned is not ecclesiastical but Christian, not human but divine, not physical but metaphysical, not material but scientifically spiritual" (pp. 496, 38).

The local meetings are held at 1:00 A. M. every Sunday in the American Legion hall.

OLDER DAM PROJECT

FEATURED IN NEW FILM.

For the first time wives, sisters and mothers will catch a glimpse of the place in which their male relatives have been working for the past three years.

The great concrete barrier that will eventually hold back 160 miles of lake, deep enough to float many ocean liners, comes for dramatic purposes to the screen for the first time in RKO-Radio's "The Silver Streak" showing at the Oasis theatre Friday and Saturday.

Another interesting feature of the picture is the fast, new, streamline train of the Burlington Railroad which makes its picture debut in "The Silver Streak."

Appearing in the picture are Sally Blaine, Charles Starrett, Hardie Albright, William Farnum, Irving Pichel, Edgar Kennedy, Theodor von Eltz and Doris Dawson.

MIRTH, MELODY AND MYSTERY IN NEW FILM.

"Transatlantic Merry-Go-Round," Reliance's sparkling new comedy drama with melody, mystery and romance, staged aboard a palatial ocean liner, comes to the Oasis theatre Sunday and Monday.

A great cast of screen and radio stars, headed by Jack Benny, Nancy Carroll and Gene Raymond is seen in this Harry M. Goetz-Edward Small production, which Benjamin Stoloff directed for release through United Artists.

Benny is seen as a genial master of ceremonies, broadcasting from the high seas, while Nancy plays Sally Marsh, the star of his troupe, and Raymond is seen as a young Raffles who falls in love with her.

Among the famous screen and radio personalities who take part in Benny's broadcasts are Mitzie Green, in her first grownup role; Frank Parker, the Boswell Sisters, Patsy Kelly, Jean Sargent and Jimmy Grier and his orchestra. Benny's famous satire, "Grand Hotel," is a high point of the program.
