WEE SHIRLEY TEMPLE HERE IN NEW FILM.

Shirley Temple—most sensational film discovery of the year—will be seen at the Oasis theatre Friday and Saturday in her latest picture, "Bright Eyes."

"Bright Eyes" was conceived as a Shirley Temple vehicle by David Butler, who directed the film. The story was suggested to him, it is said, by a real-life incident occurring at a commercial airport near Los Angeles.

Once more James Dunn is cast as Shirley's leading man. Jimmy appeared as her daddy in "Stand Up and Cheer" and "Baby, Take a Bow."

Preview audiences in Hollywood are said to have greeted "Bright Eyes" as the finest and most heart-warming picture in which Shirley has been seen. A human, compelling story, that at moments brings the tears, is combined with thrills that will chill the spines of any audience. So runs the advance report.

The supporting cast includes Jane Darwell, Lois Wilson, Judith Allen, Theodore von Eltz, Dorothy Christy, Jane Withers, Charles Sellon, Brandon Hurst and Walter Johnson.

OLD GYPSY FOLK DANCE STEPPED IN "CARAVAN".

American screen audiences will have their first glimpse of a real Caravan in "Caravan," Erik Charell's spectacular musical romance for Fox Film, coming to the Oasis theatre on Sunday and Monday.

A brilliant cast performs this romantic love story of the Tokay wine harvest. Charles Boyer, continental star, appears as a dashing Gypsy musician and Loretta Young is a gay countess. Other principals are Jean Parker, Phillips Holmes and Louise Fazenda, while such distinguished players as Eugene Pallette, C. Aubrey Smith, Charley Grapewin and Noah Beery are assigned to strong roles.

Pre-showing of 1935 Frigidaire.

L. A. Moore of Mor-Tone Sound Service, dealer here for Frigidaire Corporation, subsidiary of General Motors, today received an invitation from H. W. Newell, vice president in charge of sales, to attend a confidential pre-showing of 1935 products and advertising and sales plans. The showing will be held on Friday in Spokane, where Frigidaire's district headquarters are located.

COLLECTION OF INTERNAL REVENUE IN PENDLETON.

J. W. Maloney, collector of internal revenue, wishes to remind taxpayers that Federal income tax returns for the calendar year 1934 must be filed with his office not later than March 15, 1935. The collector will be in Pendleton February 1st to 15th, inclusive, and February 26th to March 15th, inclusive.

Income tax forms were mailed on January 10, 1935, to all taxpayers who filed such forms for the previous year. Failure to receive the forms will not relieve the taxpayer from the penalties provided if the return is not filed on time. Taxpayers required to file income tax returns, who have not received the forms, should apply at once to the collector's office for such forms.

All individuals, partnerships, fiduciaries and corporations filing income tax returns, must also file Form 1094 with the return, in accordance with the publicity provisions of the Revenue Act of 1934.

The law requires the collector to prepare such form, and add \$5.00 to the tax in any case where the taxpayer fails to file it. To avoid this additional expense taxpayers are urged not to fail to file Form 1094 with each income tax return.

Corporations in existence during 1934 must file corporation income tax returns, even though no business was transacted or income received. Especial care should be used in the case of inactive corporations to see that Form 1094 accompanies the return when filed, as the law leaves no alternative for the collector other than to prepare the form and assess the \$5.00 additional charge so provided in the Act.

ACTION TOPS "ADAM'S EVENING" IN SCHOOL PLAY

(Continued from Page 1) her and forced her to remain in the house while they gave her something to quiet her nerves. During her stay she sees Dr. Faroni, who calls to see Mrs. Bean, and at the first opportunity breaks the news to Adam that he is her husband. But not before the doctor slyly intimates to Adam that he has spent the greater part of the night with a beautiful actress patient.

The plot thickens and matters become more and more complicated, as one small lie grows into an unrumormountable one.

At the height of action Mr. Cokes, as Geo. Knapp, appears wearing a floral wreath around his neck, demanding to know who said he was dead; who sent the wreath; and who sent the undertaker for his body? Then he asks for his wife, even though he has not seen her for two years. At this point Mother Bean tries to produce the wife but finds only a crazy man in the bedroom who has taken poison in an attempted suicide. The crazy man is none other than the taxi driver, played by Geo. Sale, who had taken Adam and his lady friend on such a wild ride the night before, keeping

them out until such an early hour. The household is a turmoil, and is added to when the Doctor reappears demanding to know where his wife is and why she has not returned home. Following closely his arrival, is the true Mrs. Cokes, Sylvia Shutter, who breezes in ready to collect her husband's insurance. The doctor cares for the suicide patient, who, fortunately has taken some of Mother Bean's sugar water. To complete the puzzle, the doctor's wife appears through the main entrance to question her husband.

The crazy taxi driver is revived, and tells all about the wild ride, which clears Adam of all guilt.

Entertainment between acts was furnished by Melvin and Bruce Follett and Ed Peterson, who presented musical selections, and by Bill Lindner who gave a vocal solo, accompanied at the piano by Fern Lindner.

HOG NUMBERS FOLLOW CHANGES IN CORN PRODUCTION

HOG numbers in the United States follow closely the changes in corn production. Since 1920-21, as indicated by the bottom line in the graph above, there have been three peaks of heavy hog slaughter—the marketing years of 1923-24, 1928-29, and 1933-34. The increases in hog slaughter during these years can be traced to the big corn crops during the periods beginning in 1920, in 1928, and again in 1932, as shown by the top line above.

Over a period of years, a change of one per cent in corn production has been followed by a corresponding change of about one per cent in the number of hogs slaughtered under Federal inspection. Moreover, changes in corn production are closely associated with changes in the weight per hog marketed through the following year.

Because of this fundamental relationship, effective control of corn acreage is a vital factor in controlling hog production.

The 1935 corn-hog contract now being offered farmers provides control of corn acreage and, therefore, will be doubly effective in preventing excessive hog production during the next year or so. Lack of adequate acreage control in 1935 not only would result in a large surplus of corn and low feed prices, but undoubtedly would be followed in 1936 and 1937 by heavy hog feeding and relatively low hog prices.
