**"GILDED LILY" AT OASIS FULL OF GAIETY.**

A reporter who likes to sit on a park bench, take off his shoes and eat popcorn is in love with Claudette Colbert. An English lord who lets her think he is merely an idle young man looking for a job is in love with her, too. The making up of her mind makes the picture, "The Gilded Lily," in which Miss Colbert and Fred MacMurray and Ray Milland keep things in an uproar to the last moment. It's at the Oasis Sunday and Monday.

 HERMISTON

**KIDNAPED BY "COLD GERMS"**  
 He seemed a different person in winter. He lost his sunny summer disposition. Constant "colds" kidnaped his vitality, and made him irritable. And all so needlessly. Today, in vitamin A, science has developed a powerful weapon against the common cold. This magic food element helps keep "cold" from getting a foothold in your body.  
 MCKESSON'S VITAMIN CONCENTRATE TABLETS OF COD LIVER OIL contain an abundant supply of this valiant vitamin, together with "sunshine" vitamin D. And they are the only vitamin concentrate tablets that furnish the important minerals, calcium and phosphorus.  
 Each tablet brings you all the vitamins in one teaspoonful of U. S. P. X. (revised 1934) Cod Liver Oil. Six tablets daily will help your body to brush aside cold germs and gain new strength and vitality. At all good drug stores. \$1 for each bottle of 100 MCKESSON'S VITAMIN CONCENTRATE TABLETS.

**FORD V-8**

**In A Class By Itself**

THERE is no way to compare the Ford V-8 with any other car because there is no other car like it.

The Ford enables you to step up into the fine-car class in performance, beauty, comfort and safety. But there is no stepping up in price. That is kept down by Ford low-profit policies and unique manufacturing methods. These are as different as the car itself.

It takes eight cylinders to give the modern performance you need these days. The Ford is powered by a V-8—the finest type of eight-cylinder engine. You have to pay more than \$2000 for that in any other car.
