THE ROAD DOESN'T MATTER • THE SPEED IS UNIMPORTANT • SIT WHEREVER YOU WANT

YOU'RE ALWAYS IN THE COMFORT ZONE

THE 1935 Ford V-8 brings you the most important Ford development since the introduction of the Ford V-8 engine—the new Full-floating Springbase with Comfort Zone Seating.

Wherever you sit in this new Ford V-8, you ride centered—between the springs. Springs are longer, more flexible, and the springbase increased to 123 inches. The result is "front seat riding comfort" even for back seat passengers.

New riding ease in the 1935 Ford V-8 is matched by new driving ease. Control, steering, parking are easier. Starting and shifting have been made almost effortless. Braking requires surprisingly little foot pressure—yet is surer, smoother.

Here is a car that is styled to the minute—built for the years. Welded all-steel body, engine and chassis improvements make it more durable than ever. Safety glass throughout at no extra cost.

Look to this new Ford V-8 for everything you could want in a modern car. See it at your nearest Ford dealer's now.
