**Proposed New High School.**

The building of a high school including a gymnasium is being discussed by the board, but no definite action has been taken to date. The subject should be given serious thought.

The probable cost would be about sixty thousand dollars. If funds are secured from the PWA, thirty per cent of this amount will be donated by the government. This would leave forty-two thousand dollars to pay interest on at 4 per cent. Thirty years is allowed for the payment of this amount.

The total enrollment of the high school this year is 152. Of this number 142 are in actual attendance. This number fills the present quarters to the limit, leaving no room for any more increase.

The present seems to be the opportune time to get busy, both from a practical and an economical standpoint, since all working plans, including landscaping, must be ready

before application for federal assistance will even be considered.

**Banish the Reckless Driver.**

Drivers with chronic cases of traffic negligence, who have long and continuous strings of accidents against their driving records, will be ruled off the highways. If bills such as recently introduced in the Oregon legislature by State Senator Bynon are passed.

The bill was originated by the American Automobile Association, and carries the endorsement of the National Council for Street and Highway Safety. It has been in effect in a number of states for several years. Under it, a driver responsible for a certain number of accidents is deprived of his license. The bill is reciprocal in that persons ruled off the roads of one state cannot obtain a license to drive in another state which has the same law. States which have tried the law pronounce it extremely beneficial.

Authoritative surveys demonstrate that the habitually careless driver, like the habitual criminal, never reforms. If he is reckless, incompetent or congenitally unable to drive properly, the chances are that he will never change. No matter how many accidents he may have, and how many times he may be arrested, he will continue to cause more accidents and violate more traffic laws. Thousands of cases are on record where one driver has been responsible for a score or more of accidents within a relatively short period of time. Such drivers menace the life, health and property of us all—they have no right to drive automobiles. It is estimated that, after the 1935 legislative session close, 85 to 90 per cent of all motorists in the country will be affected by a safety responsibility law. It will be a potent weapon in the war against our mounting toll of automobile accidents—nine out of ten of which are easily avoidable.

 Lawson H. Flora, Pastor.

We wish to announce that the Pilgrim Holiness church has moved from the Columbia school house to their new location just north of the Osborn apartments on Second street.

All are invited to meet with us Sunday school at 9:45. Preaching at 11:00 A. M., and 7:45 P. M.

We teach and preach the old time Methodist doctrine.

**CHRISTIAN SCIENCE CHURCHES**

**"A Real Sin, Disease, and Death"** was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, April 14.

The Golden Text was, "Heal me, O Lord, and I shall be healed; save me, and I shall be saved; for thou art my praise" (Jer. 17:14).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Lord is good to all; and his tender mercies are over all his works" (Ps. 145:9).

The Lesson-Sermon also included the following correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "Instead of God sending sickness and death, He destroys them, and brings to light immortality. Omnipotent and infinite Mind made all and includes all. This Mind does not make mistakes and subsequently correct them. God does not cause man to sin, to be sick, or to die" (p. 206).
