Abuse of Mails.

Many people are abusing the use of Uncle Sam's mails in mailing the send-a-dime chain letter. The idea was fine as long as it stayed within the circle of friends who experienced exhilaration in the form of amusement, bringing fair returns to many and a form of excitement to others even when they did not realize any returns. In this way it does not do any particular harm.

But other individuals are making a racket of the idea. Press reports from the middle west bring tales of racketeering and arrests of brokers who are capitalizing on the idea. This can be checked if individuals who receive letters do not send them on unless they know the individual who sent it to them.

Uncle Sam says that the plan is illegal and violates the lottery and fraud law of the postal service, and an effort is being made to locate the originators of the plan.

When the racketeers enter such a plan it is time for the ordinary individual to drop out.

BUILD UP YOUR BLOOD

That "Run-Down" "Half-Sick" Feeling Often Due to Thinned Out Blood!

Pursang, the marvelous new tonic, helps to restore red and white corpuscle balance and drive out blood impurities.

Pursang is the No. 1 product of one of the finest medical laboratories in the business. It was created by the same man who gave the world organic copper and iron compound, the deadly foe of anemia and anemic conditions. In Pursang itself these precious elements are included.

It was the aim of the creator of Pursang to produce a tonic specifically for "run down" and impoverished blood conditions. He spent years studying such conditions in all types of men and women, seeking always to find the perfect formula to combat such blood deficiencies. Finally Pursang was produced.

If you are "off-color" and "run down," get a bottle of Pursang today. Take it for two or three days and see how much better you feel.

THE CAR that has WON AMERICA

The Ford V-8 for 1935 has been an outstanding success, not because of anything we have said about it but because of what owners have said. As Country Clubs... In Pullman Cars... In Airplanes... In Living Rooms... At filling stations and on the streets. And all these comments tend to fall under four headings: one, "The new V-8 rides like a dream"; two, "It's smartly designed"; three, "It costs less to run"; and four, "It performs like 'nobody's business'!" AUTHORIZED FORD DEALERS

AT A FILING STATION "We don't see you so often, Mr. Bradley." "Well—I don't have to come around for gas quite so often with this new Ford V-8. It's by all odds the most economical car I've ever driven—and that goes for all consumption, too."

4,000 FT. OVER THE MOUNTAINS "Pretty smooth flying today." "Yes, the folks back home wouldn't believe it if I told them this airplane ride was rough compared to a trip in our Ford V-8." "You got one too?—Says that 'Comfort Zone Ride' in this year's job has got to be rated to be appreciated, hasn't it?"

AT A BRIDGE TABLE "I didn't realize until I saw your Ford how really smart a car it is." "Both... And the roomies!" "Why there's all that space for legs and still George said there was more room for his legs than in a limousine."
