WOMEN!
Pursang Often Aids to Clear Complexion
Helps to Restore Red and White Corpuscle Balance and Drive Out Blood Impurities

How do you know your skin can't be white and beautiful? Why take it for granted that you must look sallow and undernourished? Perhaps you're just run down as nearly everybody is at this time of the year and need a good blood tonic and system builder. We recommend Pursang to you.

Pursang is the No. 1 product of one of the finest medical laboratories in the business. It was created by the same man who gave the world organic copper and iron compound, the deadly foe of anemia and anemic conditions. In Pursang itself these precious elements are included.

It was the aim of the creator of Pursang to produce a tonic specifically for "run down" and impoverished blood conditions. He spent years studying such conditions in all types of men and women, seeking always to find the perfect formula to combat such blood deficiencies. Finally Pursang was produced.

If you are "off-color" and "run down," get a bottle of Pursang today.

Thirty Million Miles of Ford Economy

MORE MILES. Faster miles. Greater economy . . . that is the story of the Ford V-8. There are conclusive figures from owners to show that it is the most economical Ford car ever built.

A particularly interesting and complete report of costs comes from a national fleet owner who has owned 854 Ford cars which have run more than thirty million miles in business use.

175 were Model T Fords which were run 5,017,075 miles. 599 were Model A Ford cars which were run 24,041,632 miles. 80 are Ford V-8 cars which have been run 2,982,886 miles.

This owner's cost records show that Ford V-8 cars cost 12% less to operate than the Model A Fords and 31% less than the Model T Fords. And they covered more miles per month! The monthly average for the Model T Fords was 1509 miles. . . . For the Model A Fords, 1866 miles. . . . And 2571 miles for the Ford V-8.

Each year the Ford car gives you more in value and performance and costs you less to operate.

Actual Figures Show The Ford V-8 is 12% More economical than the Model A. and 31% More economical than the famous Model T.
