**CANTOR'S "KID MILLIONS"
LAVISH SONG-AND-GIRL SHOW.**

"Kid Millions" Eddie Cantor's fifth annual screen musical comedy for Samuel Goldwyn, which comes to the Oasie theatre Friday and Saturday, is the season's most ambitious venture in the way of song-and-girl entertainment.

For the sixty girls who win places in the battalion of decorative femininity, world fame as a Goldwyn girl is just around the corner.

Each girl required her own wardrobe mistress, her own hairdresser, her own makeup man. The dancing instruction staff had twelve men. Eighty electricians were required to light one set of the production and hundreds of workers were required for the months of preparatory work on sets and costumes.

The final episode of "Kid Millions" is a colored fantasy, about five hundred feet long and taking no more than six minutes on the screen, but costing \$210,000 to make. The film is released through United Artists.

**FIRE MARSHALL WARNS
AGAINST FIRECRACKER DANGER**

Salem, Ore., June 24—(Special)—Mr. Hugh H. Earle, state fire marshal, calls attention to the added danger connected with the use of firecrackers this year. One product known as a bomb which is about one inch long and three-fourths inch in diameter is claimed to have contained 43 grains of explosive. The explosive was not a gun powder but reacted with much greater violence than gun powder.

This is over four times the violence of the customary firecracker and the hazard connected with them is much greater. Dealers cannot escape their responsibility in selling these high explosives and particularly when selling to minors. Parents should also properly instruct their children, otherwise there may be many serious accidents and disastrous fire losses.

Team	W.	L.
Umatilla	9	2
Echo	6	5

Hermiston shortened the distance between themselves and league second place holders Sunday by defeating Echo 9-4. Hermiston opened fire in the first by completing two runs and holding Echo scoreless in the first and second, four of these strikeouts.

Correl for Echo connected for a two base hit in the third which failed to tally when Dorn went to the bench and Stampeo lost on a single. Wiltner's double in the sixth brought Berry and Thomas home for Echo's first scoring. Correl singled in the ninth to bring home Dorn on a walk to first, closing the tallies for Echo.

Harris and Gimble walked to first and were scored on a single by Woodward in the first. Yeager relinquished a run in the second when Shafer struck out, after Harris had singled to first. Woodward tallied on a two base hit in the third, followed by a triple in the fourth which brought Harris across home plate.

With the exception of a walk by Longhorn, Hermiston drew a blank in the fifth and were unable to cross the home plate in the sixth and seventh. They rallied in the eighth when Woodward connected to score Harris and Gimble, and Yeager went to home plate on a single.

HELP CONGRESSMAN PIERCE GET UMATILLA RAPIDS DAM AUTHORIZATION

Unemployment is the most important factor in the allotment of the \$4,000,000,000 works relief measure and the president and his administrative officials demand that the funds be placed where employment will be given to the greatest number. Congressman Walter M. Pierce has written E. P. Dodd that a showing of the unemployed and those desiring work, within the fifty mile radius of the Umatilla rapids or Snake river dams, or who may come from other areas to find employment here would be of great assistance to him in presenting our case to the president, as against the urgent demands of the the great cities of the east.

The Hermiston Herald is presenting this questionnaire to its readers, and hopes that every honest effort will be made to fill out this blank, and mail it to the secretary that has been provided to list them and report to Mr. Pierce.

It is believed that this action is most important in the work of securing the early construction of the Umatilla dam, and this questionnaire will be preserved and given to the government employment agencies when the work is authorized.

**Irish-Scotch Family Feud
In New Film at Oasie.**

A human, down-to-earth and robustly humorous story of a self-made Irishman and a Scotchman who were the best of enemies, Paramount's "McFadden's Flats" comes Wednesday and Thursday to the Oasie theatre with Walter C. Kelly, "The Virginia Judge," in the leading role.

Andy Clyde, popular screen comedian, is cast as the Scotchman and the friendly enemy of Kelly, who has risen from hod-carrier to the builder of the grand new McFadden tenements.

When McFadden's project is faced with ruin, Clyde comes to his aid secretly. But Clyde and his unconscious beneficiary still carry on the old feud although their youngsters, Richard Cromwell and Betty Furness, are romantically inclined about each other.

Under the illusion that he is wealthy, Kelly sends his daughter off to finishing school to acquire the manners of a lady. When the girl returns completely changed it seems as though the romance is broken and there will be a breach between the families.

UMATILLA PLANS BIG OPEN RIVER FETE ON FOURTH

ENGINEER ROBINS MAKES SECOND REPORT ON RIVER WORK.

Open River Methods of Channel Improvement Between Umatilla and Snake Not Adequate.

A second report on the proposed improvement of the Columbia and Snake rivers for navigation has been made by Colonel T. M. Robins, United States division engineer, pursuant to resolutions by committees of the house of representatives and United States senate. Colonel Robins announced Tuesday of this week in a public notice.

He recommended that construction of locks and dams above Umatilla, Ore., be deferred until the benefits of such improvement would be commensurate with the cost, he estimates at \$70,000,000.

This report, he said, "finds that improvement of the Columbia river between Umatilla and the mouth of the Snake river, and of the Snake river below Lewiston, by open river methods will not provide an adequate channel at reasonable cost. Through commercial navigation to Snake river points is dependent on construction of a lock and dam on the Columbia river at Umatilla rapids and a series of locks and dams on the Snake river.

"The estimated cost of this slack water improvement is \$70,000,000 for new work and \$40,000,000 per annum for maintenance. Construction of any of the locks and dams involved in such improvement does not appear to be economically justified at this time. However, it is believed that comprehensive slack water improvement of the waterways in question will some day be necessary and that, in the meantime, no further open river work should be done above Umatilla.

"Slack water improvement, when undertaken, should be progressive, beginning downstream by construction of a lock and dam at Umatilla rapids with a pool elevation of 310.5 feet above sea level. The estimated cost of this lock and dam is \$23,240,000 for new work and \$75,000 per annum for maintenance.

"In accordance with the foregoing, the report in question recommends modification of existing projects for the Columbia river between Umatilla and the mouth of the Snake, and for the Snake river below Lewiston, so as to provide for discontinuance of open river work and eventual step-by-step slack water improvement as outlined above, but that construction of any locks and dams be deferred until the benefits to be expected therefrom are commensurate with the cost."

The notice says that anyone desiring to appeal from the conclusion of the report may present his view to the board of engineers for rivers and harbors, Washington, D. C.

"Pop" Swazey will need his higher-than-the-head staff to support him after reading this one. The yarn goes like this: Recently an entertainment was given at which the orchestra played, "No, No A Thousand Times No," and all the bankers in the audience stood up, thinking the national anthem was being played.

Watson was telling us the other day that a Virginia man has succeeded in crossing a cabbage with an onion, and I am smoking it right now, declared Watson.

Ralph Shafer and Roy Penney were playing the Pal, Old Pal, stuff Saturday as they walked down the street arm in arm, across shoulders, evidently forgetting that the mumps are contagious.

We were reminded of the little chick and the falling leaf story Tuesday when Plumb, Jimmie and Frankie (Mrs. Chas. Clark, d. Arlyne, Mrs. Maurice Weis) dashed from the berry patch at the sound of a loud crash, jumped into the car and sped to town to witness the catastrophe. The train stopped them at the railroad track and the long line of cars were still jumping and banging from switching activities. What a perfect alibi for leaving the berry patch.

As Elsie and Charlie Duval climbed into their Ford, the question was asked, "Are you going to drive Elsie?" The reply came from Charlie, "She is driving but I am sitting behind the wheel."
