When a Bank Accepts Deposits
—IT ENTERS INTO HUMAN RELATIONSHIPS THAT MAKE IT UNIQUE IN BUSINESS LIFE.

It assumes toward its depositors an obligation to safeguard the funds placed in its keeping, with all the diligence humanly possible for it to exercise.

It assumes toward its community the obligation to employ those funds—through good business loans, and through advances for sound public requirements—to serve the vital needs and broadest welfare of the community.

It assumes toward its own stockholders the obligation to conduct its business in such a way that their capital investment will be fully protected and earn a fair return.

Honesty and skill in management, which command the confidence and support of its community, are the only ways in which a bank can meet these threefold obligations. There are no substitutes for them in banking laws or financial practices.

Chesterfield
CIGARETTES

More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette. We believe you will enjoy them.
