

R. C. CAMPAIGNS TO PREVENT ACCIDENTS

Program Inaugurated in Local Chapters to Cut Down Farm and Home Accidents

The American Red Cross has launched a nation-wide campaign to eliminate hazards in the home and on the farm that now take an annual toll of nearly 35,000 lives, according to a recent statement by James L. Fieser, vice chairman in charge of domestic operations.

"Every Red Cross chapter is being asked to play a part in this campaign," Mr. Fieser said. "Hazards in the various communities will be pointed out. The children in our schools throughout the country will be given a list of the home hazards and asked to enroll parents or relatives in the fight against them."

Nearly five million men, women, and children were temporarily disabled in the homes of America last year by accidents, officials of the National Safety Council have revealed. Most of the accidents in which persons were killed and injured could have been prevented, according to this safety agency, this fact alone largely motivating the Red Cross drive for accident elimination.

Active cooperation of social, civic, educational, veterans, and other groups has been secured. Red Cross inspection forms or home check lists will be distributed to homes where there are no children with the help of these organizations.

Due to inaccessibility and lack of compensation coverage, little or no pioneering has been done in the field of farm safety, the Red Cross states. However, more people were accidentally killed in agricultural pursuits last year than in any other occupation, making the need for safety education and farm home inspection apparent.

Other agencies now active in the accident-prevention field point to the fact that, because of its nearly 13,000 chapters and branches, the Red Cross has a unique opportunity to successfully promote a project of this nature.

Home accidents injure many more than do automobile accidents; they kill nearly as many, claiming an average of about 80 lives daily. In terms of dollars and cents, for the practical minded, home accidents cost more than \$1,000 per minute.

Accidents of all types are Public Enemy No. 4. Only three diseases cause as many deaths each year, heart disease, cancer, and cerebral hemorrhage.

"The home is not the place of safety it is commonly supposed to be," said Mr. Fieser in commenting on the new Red Cross service to the community. "The Red Cross, as a part of its chartered obligation to prevent death and alleviate suffering, is conducting this humanitarian program to cut down the mounting toll of avoidable personal injury and death in the homes of the country."

The annual Red Cross roll call, running from Armistice Day to Thanksgiving Day, is one of the means of backing such a campaign. All citizens of the United States are offered the opportunity to join and assist in the work of the organization.

Red Cross Has Busy Year; Statistics Impressive; Services Varied

Figures gathered at random from the year's report of the American Red Cross reveal the magnitude of the work being carried on by that organization.

Red Cross workers assisted 54,305 veterans; 587 Red Cross Public Health nurses paid 921,455 visits to 186,326 patients; 98,441 first aid certificates were issued while 46,693 persons were trained in life saving. Volunteer workers produced 3,102, 843 surgical dressings, with 80,901 volunteers being on active duty throughout the year.

First Aid Treatment Taught Thousands By Red Cross

More than 187,000 certificates showing completion of first aid courses were issued last year by the Red Cross. This shows a gain of 56,000 certificates over the previous year. Approximately 64,200 boys in C.C.C. camps throughout the country passed first aid tests. Since the Red Cross first entered the field of first aid teaching, being one of the first organizations in the world to do so, at most one million persons have been trained in handling emergency treatment.

The annual report of the Red Cross further reveals that more than 327,000 copies of the Red Cross Aid Handbook have been sold at home and abroad.

The Red Cross has assisted 54,305 veterans in clearing their cases through the U. S. Veterans' Bureau this past year.

Last year 3,537,941 persons became members of the Red Cross. The annual roll call takes place each year between Armistice Day and Thanksgiving Day.

Junior Red Cross members increased by 402,000 enrollments during the year, which has just passed. Junior members carried on an exchange of correspondence with junior members in 62 other countries having Red Cross Societies.

COFFEE HAS MANY KITCHEN USES, SAYS MAGAZINE.

Coffee is not only the great American beverage, but has many other uses in the kitchen where it can be used to give an unusual flavor to ice cream, muffins, puddings, breads and even pies, according to Julia Lee Wright, famous cooking authority who writes in the issue of the Family Circle Magazine.

Hard sauce flavored with coffee, over a chocolate steam pudding; coffee added to hot cocoa; coffee added to custard instead of using all milk; adding egg whites and gelatin to coffee for a Spanish cream; coffee cheese muffins; and coffee quick bread are among the unusual tasty treats described by Mrs. Wright in the current issue of this magazine which is distributed this week by the Safeway stores.

... but, after all is said and done, it's the cigarette itself that counts

... the question is, does it suit you?

Now, when it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding .. for mildness .. for better taste
