GIVE YOU THE NEW
KELVINATOR

with *Visible* COLD, *Visible* ECONOMY and *Visible* PROTECTION

Today we recommend that every owner of an automatic refrigerator learn about the new 1936 Kelvinator. It has three outstanding, fundamental values that buyers want.

Visible Cold: Safe temperatures in the food compartment, proved by a Built-In Thermometer so there can be no doubt about how cold it is.

Visible Economy: It uses from one-third to one-half as much current, as shown in advance by a Certificate of Low Cost of Operation.

Visible Protection: A 5-year Protection Plan, signed by the oldest company in the industry.

The new Kelvinator gives you flexible rubber grids in all ice trays, and such conveniences as automatic defrosting switch, interior electric light and many others.

See the 1936 Kelvinator whether you now have an electric refrigerator or not, and let us tell you how you can have one for as little as 15c a day. Come in tomorrow.
