**JUNIORS TO HONOR SENIORS AT ANNUAL EVENT, MAY 15TH**

**HARRIS APPOINTS VARIOUS COMMITTEES TO WORK.**

Many Alumni Expected to Attend.  
 (From the Bulldog)

Plans are now being made for the annual Junior prom, given in the spring every year in honor of the departing seniors. The date has been set for May 15th and committees in charge, who were appointed this week by Bill Harris, class president, are as follows:

Decorations — Margaret Clarke, Opal Stockard and Irene Kennings; Invitations — Helen Dunning, Bernard Jendrzewski; Programs — Roberta Mullins, Josephine Moyer and Mary McGonigle; Refreshments — Floy Attebury, Dorothy Conrad and Edith Peterson; General Arrangements — Floyd Coxen and Darrel Seeliger; Music — Rosemary Serell.

No other definite plans have been announced except that Stan Atkin's Columbians will furnish the music and that although all alumni are automatically invited, only those graduated within five years back are entitled to issue another invitation to an outsider. All invitations issued by upper classmen are to be in by Wednesday, April 22nd, to Helen Dunning.

**SOUND PROSPERITY ERA SEEN BY FORD**

"Lower Prices, Higher Wages," His Prescription.

New York.—Advising business men to stop worrying and to "go sanely and resolutely ahead with wealth production, followed by wealth-sharing through high wages and low prices," Henry Ford looks forward today to a future of "sounder prosperity than we have ever dreamed of in the past," provided "we keep our heads."

Industry can absorb all employable among the unemployed; great development lies ahead for the automobile; a vast job of modernization must be accomplished in America replacing heavy materials with lighter articles; industry should be "decentralized" and school children must be "fully prepared to push on eagerly along new lines," Mr. Ford declares in a signed article appearing in the American Magazine.

Mr. Ford distinguishes between two kinds of prosperity in the article. One is expressed, he says, by "bounding stock markets, crowded night clubs and spectacular riches for the few." Sound prosperity he describes as "an ever-widening distribution of useful goods and services."

"If we keep our heads we may expect to see in the future a greater measure of this sound kind of prosperity than we have ever dreamed of in the past," he declares.

"Whether America is doomed to another cycle of boom and collapse does not depend on the government which can neither help nor hinder much. It depends upon the intelligence, decency and self-control of American business men."

Mr. Ford states he himself is absolutely uninterested in political office and scores business men for bothering with politics and the stock market. He believes he can be "much more useful" tending to his own business.

The new law increasing inheritance taxes does not worry him, nor do "reasonable taxes" on business.

Eliminate worry, which he describes as "one of the most wasteful things in the world," be "expectant of change" and push ahead, sums up Mr. Ford's current philosophy.

Mr. Ford's own prescription for prosperity is "constantly turning increasing efficiency into lower prices and higher wages."

"Only the minds who see that this is reasonable and practicable are going to stay in business," he insists. "Business is purely a service and not a bonanza."

**Fifteenth Century Ship to Cross Atlantic Ocean**

Lisbon.—A small "fifteenth century ship" correctly built in every detail will cross the Atlantic from Lisbon to Santa Cruz, Brazil, next May to commemorate the discovery of that part of Brazil by the Portuguese sailor, Pedro Alvares Cabral.

In 1500 he set sail from Portugal. He was bound for the East Indies. To avoid being becalmed off the coast of Africa, he took an extreme westerly course which led him to the then unknown coast of Brazil.

He landed and claimed the country for Portugal—naming it "Terra da Santa Cruz."

This voyage is to be repeated next May in a ship built to resemble exactly Cabral's own. When it sails, its captain will be Admiral Cago Coutinho, who in 1922 made the first airplane flight from Lisbon to Brazil.

A deputation of Portuguese authors and journalists will be the passengers, while the cargo will be samples of Portuguese manufactures.

The little ship will be escorted by a flotilla of destroyers.

**Spanish Women Doffing Shackles of Convention**

Madrid.—The long-sheltered women of Spain have been entering fields once closed to them in increasing numbers. Twenty-five years ago women in Spanish universities were rare, but today in some faculties, such as philosophy and literature in the University of Madrid, there are more women than men.

Sports have begun to make a wide appeal, particularly in Madrid, where hundreds of girls go swimming in the summer and skiing in the winter. Every week-end hundreds leave Madrid for a day on the slopes of the nearby Guadarrama range.

The republic gave Spanish women the vote, and in Madrid more women voters are registered than men.

**Famous Yukon Town Buried by Dredges**

Dawson City, Y. T.—The famous old placer town of Bonanza, better known as Grand Forks, located at the junction of Bonanza and Eldorado creeks, 13 miles from Dawson, has been buried deep from mortal vision by the big dredges of modern gold mining companies. At one time Bonanza had 2,000 inhabitants and was the center of trade for 1,000 more. Today the town is covered with gravel, thrown aside by the giant dredges.
