

Freight trains nowadays act like express specials. New freight schedules are so fast, sometimes wonder if everything has to be delivered day before yesterday.

Many of our passenger trains are running faster schedules, too. Well, one thing is sure. We make faster runs, but the first railroad comment is still "Safety First." That's one rule they won't change.

Western railroads and allied industries provided jobs for 750,000 workers last year. Some of them live in our town. Good neighbors.

Passenger fares are now the lowest in history with substantial reductions on round trips. And no more surcharge for riding in sleeping cars.

This Free pick-up-and-delivery of less than carload freight—I heard some traveling salesmen talking about it on the train yesterday. They said it saves shippers a lot of money and centers all responsibility on the railroad. The railroad picks up the freight at shipper's door and delivers it at receiver's door. Of course, the local delivery men get the haul from door-to-car and car-to-door at both ends. But the railroad handles the whole transaction.

When railroads are busy, I notice towns along the railroad are prosperous. The merchants put more ads in the newspapers.

Wearproud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.

City officials are asking that local residents refrain from calling central for at least ten minutes after the fire alarm is given to allow time for all volunteer firemen to call and find out where the fire is. Otherwise central is so busy answering calls that she cannot direct the firemen. This hinders prompt action on the part of the fire department and increases the fire hazard in the city.
If citizens will cooperate there is a greater chance to prevent damage in case of fire.

CHURCH NOTES
HERMISTON UNION CHURCH

8:15 P. M., Evangelistic services.

SCHOOL WILL STAR YEAR SEPTEMBER 7TH.

(Continued from page 1)
ded. The home economics course will be open only to high school freshmen. This requirement is necessary due to the fact that considerable equipment is required and it is probable that more freshmen girls will want to take the course than there will be equipment to accommodate. In the event that there is room for others, sophomore girls will be given the preference. Two units of typing are offered and these courses are placed in the junior and senior year. There appears to be ample equipment for first year typing but the time allotted to the second year course is strictly limited and in the case of seniors wishing second year typing it becomes practically a case of first come first served. No students will be registered in second year typing until all seniors are accommodated, but in that class no preference except that of early registration can be given. The expense of additional machines makes it improbable that this class can be much expanded. Shorthand and bookkeeping are two other vocational courses. The shorthand should be taken in conjunction with typing I in the junior year and bookkeeping in the senior year.

For many years educational authorities have looked upon the school athletics as a fine thing but have noted several shortcomings. The physically fit were the ones who received the physical training and many who needed it badly received no training in either hygiene or physical exercise. There has been a growing demand that each and every student receive a minimum of instruction in physical education and health. At present the Oregon law requires that every student who receives a high school diploma after 1936 present at least three years such training and that one credit be granted for it. As the Hermiston school is just starting the course

all freshmen and sophomores will be required to register for the course, while juniors and seniors can elect to take it or not to take it. Freshmen and sophomores will graduate on or after the 1936 date set and juniors and seniors need not meet the requirement although it is desirable for them as well.
The superintendent will be in his office from 9 to 11, and from 2 to 4, on Monday, Tuesday, Wednesday, Thursday and Friday before school starts and he requests that all high school students register some time during that week.

† PINE CITY NEWS †
By Lenna Neill
