NEXT - THE DALLES.

Last week we asked the question, "Where do we go from here?" in the Umatilla dam question. The answer is—The Dalles, next Tuesday. It is quite plain that plans are being made laid to subvert attention on the Umatilla dam to a program too big for us to carry, and in the jumble, high powered communities will attempt to have lower dams built first. To arouse public sentiment, however, politicians, and army engineers yield, and with the strength of the argument for the Umatilla dam, we can yet win the decision. The only way to defeat us is for us to take a defeatist attitude or in other words, say, "Oh, hum!" and give up the ship.

SUPPORT CCC.

The efforts of Captain Tillman to achieve the greatest success through the objects of the CCC administration, in the Stanfield encampment, should be supported by all the surrounding communities. The camp is not only very valuable to us from an economic point of view, but duty to the officers and boys of the camp requires that we cooperate in the improvement of the morale, and the education and citizenship of the young men at the barracks.

The gift that pleases all and benefits all—

"OUR NICEST GIFT"

Prolong the Spirit of Christmas for Years With Aladdin Light

"And a wonderful light shown round about," so Scripture says of that first Christmas night. How appropriate, then, to put that truly "wonderful light" of the Aladdin Lamp into your home this Christmas. So white—so pure—approaching sunlight in its effulgence. Modern, too—unsurpassed by electric light for quality and steadiness.

Giving Aladdin Is Good Taste!

The gift of Aladdin is the gift of something recognized to be fine and durable. You couldn't choose anything more appropriate for friends in the country who are without modern light. Its use means economy. Runs 50 hours on a single gallon of kerosene (coal-oil). Burns 94% air and only 6% oil. Saves eyestrain, which all too often runs into expense for examination, treatment and glasses. So simple and safe a child can operate. No Fall the of noise, odor or smoke; no SUPPLIES pressure to maintain.
