**FRIENDLINESS.**  
A fine spirit is being shown by Stanfield citizens in sponsoring the dance which will bring in revenue to be used in furnishing the recreation hall at the Stanfield CCC Company camp. Much good will come from this investment and the feeling of friendliness between the CCC boys and local citizens will be increased. Every CCC enrollee is some mother's son—and may be treated as such—the same as other boys in these communities, and may they in return be approached in a friendly manner.

**SNOW-WATER.**  
We have been wishing for snow. Now we have it to the tune of four inches on the project, and plenty of snow in the mountains to insure water to fill the reservoir for summer irrigation. Providence is with us inasmuch as we are assured of water for crops during the hot summer months when most anything that is placed in the ground will grow to maturity, under proper cultivation.

**TREE PLANTING.**  
Tree planting on the project cannot be over emphasized since trees aid materially in preventing soil erosion, are the only ideal wind-break, and make for beauty and comfort. Early settlers were untiring in their efforts to keep the tree planting program underway. They realized keenly the necessity of trees on the project. We would not now have the shady, restful tree-lined avenues in our city, through which weary tourists pass, had it not been for their foresight.  
A pool order for trees is sent in each spring by Assistant County Agent Sawyer and trees may be se-

cured for \$4 per thousand delivered here, if the individual will only indicate the number he wishes. The black locust is the recommended, all-purpose tree for this project because of its fast-growing and wood qualities. It is ideal for wood lots or wind breaks and makes ideal posts.  
The Russian Olive is a slow growing, hardy tree and will survive with less moisture than other trees. Other trees which may be secured in this way, but which are not highly recommended for use here, are Norway Spruce, Ponderosa Pine, Scotch Pine, European Larch. The Caragana is a tall growing shrub which is highly recommended for low wind breaks. We will do well in preserving our project and keeping down soil erosion if we keep the tree planting program moving.

**IT STEPS AHEAD**  
The Umatilla Project Farm Bureau was first known as the Columbia Farm Bureau when it was organized in 1922 with Frank Waugaman as its president. He served two years and was followed by F. P. Phipps who later moved to Salem. H. J. Ott was then automatically shifted into the president's chair and has served since that time.  
The annual meeting of this organization was held last week in the usual manner, giving reports of its work in the development of the various projects in the community. This organization may be considered the mother of all local cooperative enterprises since it has assisted in a financial way with the beginning of nearly every one. Its members have been faithful in assisting in any way with the organization of other cooperatives and also loyal in their support of all worthy projects in the community, such as the Boy Scout movement, rodent control, tuberculosis testing among cattle, Bang's disease testing, and in securing any legislation that will aid the farmer.

The Umatilla Project Farm Bureau has been a pillar of strength in the community and its members should never desert it—it has always stepped ahead.

**CHRISTIAN SCIENCE CHURCHES**

"GOD" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Jan. 2.

The Golden Text was, "God is the Lord, which hath shewed us light" (Ps. 118: 27).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: Hear, O Israel: The Lord our God is one Lord: And thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might" (Deut. 6: 4, 5).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "God is incorporeal, divine, supreme, infinite Mind, Spirit, Soul, Principle, Life, Truth, Love. Question.—Are these terms synonymous? Answer.—They are. They refer to one absolute God. They are also intended to express the nature, essence, and wholeness of Deity . . . Principle and its idea is one, and this one is God, omnipotent, omniscient, and omnipresent Being, and His reflection is man and the universe" (pp. 465-6).
