If You Have a Child

ASK YOUR DOCTOR THIS

Ask Him Before Giving Your Child an Unknown Remedy

Practically any doctor you ask will warn: "Don't give your child unknown remedies without asking your doctor first."

When it comes to the widely used children's remedy—"milk of magnesia," the standard of the world is established. For over half a century many doctors have said "PHILLIPS' Milk of Magnesia." Safe for children. No other is "quite like it."

Keep this in mind, and say "PHILLIPS' MILK OF MAGNESIA" when you buy. Now also in tablet form. Get the form you prefer. But see that what you get is labeled "Genuine Phillips' Milk of Magnesia."

ALSO IN TABLET FORM:

Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

OREGON STATE NEWS OF GENERAL INTEREST

Brief Resume of Happenings of the Week Collected for Our Readers

Eugene—Dates tentatively set for Eugene's Oregon Trail pioneer pageant are July 22, 23 and 24, it was announced this week by the pageant association directors.

McMinnville—More than 30 farmers attended the two-day Yamhill county soils conference, held at McMinnville, Thursday, and at Newberg the following day.

Eugene—A. E. Voorhies, publisher of the Grants Pass Courier, was elected president of the Oregon Press conference as that group concluded its 19th annual session here today. George S. Turnbull, professor of Journalism, was re-elected secretary.

Hood River—A partial distribution by the apple growers' association put \$85,000 into the pockets of apple and pear ranchers in this area. Returns were said to be better than anticipated, in view of the maritime tie-up, and markets held firm. Storage holdings were reported below normal.

Toledo—The proposed \$96,750 municipal water system has been brought one step nearer with the naming of February 9 as the bond issue election date, according to City Attorney W. H. Waterbury. The new system is to be financed by a 45 cent. PWA grant and \$55,800 to be raised by the city.

Tillamook—Tillamook Bay Fish company of Bay City is experimenting with salmon eggs. Boxes, four inches tall with window screen bottoms on which a quarter million eggs are placed an inch or two deep so they can be "wet down" several times each day, are covered with sacks to keep them moist and the boxes are piled up in the cannery.

Medford—Fire early today destroyed the exhibit building at Medford fairground, which was used by the CCC for a transportation garage. Five new army trucks, an ambulance, an undetermined number of automobiles used by officers and salvaged trucks brought in for repairs were destroyed. Fire Chief Elliott believed the fire started in one of the cars.

Medford—Dr. Russell R. Sherwood of the Osteopathic clinic broke a rib on his right side early Saturday morning when he coughed, turned over in bed and reached for a glass of water all at the same time. Dr. Sherwood was resting on his elbow in bed, as he reached for a glass of water on a bedside table to allay a heavy siege of coughing, when the mishap befell him.

Albany—Employment of a Linn county full-time health nurse has been announced by County School Superintendent J. M. Bennett, who thus heralded realization of an objective that had been pursued for many years by the Linn County Health association and school authorities. At a meeting of the health program board of control Nova Young of Salem was named.

Cocquille—George Burr, local garage man, has discovered a way to "fix" a ticket for overtime parking—he just gives the arresting officer the automobile. When Officer Kermit Shaw of the local police force warned Burr that a ticket was in line for over-parking, Burr pulled the car's certificate of title out of his pocket, signed it and said: "It's your worry now. The car is yours." The car was an obsolete model.

BEAVERS TO SAVE LAND

Eugene—A survey of forest streams in the Lane area with a view of transplanting beaver here is being conducted by Victor Schefer, representing the forest service and the biological department.

The drying up of range lands and erosion of soil has been checked in Eastern Oregon by regeneration of the beaver colonies, it is said. The beavers build dams that retain stream water during the summer and prevent rapid wasting of water.

WANT LAKE REFLOODED

Klamath Falls—Petitions bearing signatures of hundreds of Klamath county residents who favor reflooding of Lower Klamath lake as a dust control measure, will be presented in the near future if plans of the Merrill Service club carry. Southend residents claim they have been assured of undivided support from Congressman Walter M. Pierce, who visited the Lower Klamath lake area last fall and investigated the situation. Other petitions will go to Senators Steiwer and McNary.

Rainier—A bit too late to figure in an AAA joke, a Chester White sow on the C. L. Wilburn farm in Fern Hill has made her bid for fame as a pork-chop producer by giving birth to 16 pigs.

Baker—General relief in Baker county cost \$2949.58, old age assistance \$5980 and blind assistance \$235, a total of \$9274.58, during December. One hundred and eighty-five cases, comprising 458 individuals, received direct help other than old age and blind assistance.

What Irvin S. Cobb Thinks about

Hollywood "Rifts" and "Probes."

BEVERLY HILLS, CALIF.—Out here, our two favorite headlines are "Rift" and "Probe," one signifying that some ideal marriage between movie stars has begun to split at the seams and the other that some functionary has been in office long enough for the professional investigators to start investigating.

In between, somebody is either trying to put Sister Aimee McPherson in a hole or get Tom Mooney out of jail. So far, neither undertaking has succeeded, but folks keep right on trying. Last month, it was Sister Aimee's turn. This month it's Tom Mooney's.

Irvin S. Cobb

But when other sources of news fail, it's fine to be able to fall back on good old reliable "Rift" and dependable, staunch old "Probe."

Poor Lo's Renaissance.

THE government says the surviving Indians are actually increasing in number. I started to add that this proves the Indians are holding their own, but, since we've left them very little of their own to hold, I stayed my hand.

The Navahoes always have been the most independent and aloof of all the tribesmen. For the most part, they continue to live a nomadic existence, following their ancient beliefs and ceremonies, refusing to be caged in towns, yet, numerically and in material possessions, they outgrow any other tribe.

Can it be that the white man's culture, which we so jealously strive to cram down the gullets of red people and black and brown and yellow, isn't always what the victims need?

But, of course, to say that is practically to admit our civilization might have a few tiny flaws in it, whereas we know it to be the one perfect creation of man, and for proof point to its crowning achievement, the late World war.

The Spoils System.

THIS isn't a criticism, it's a timid little prediction based on all the political experience that the past yields to us:

Pledges of curtailment in governmental expenditures, as emanating from White House sources, are undoubtedly sincere. But Andy Jackson or whoever it was first coined the line, expressed the correct idea when he said that to the victor belonged the spoils—and not to let them spoil too long either.

So it shouldn't surprise anybody or deeply shock anybody, except the few G. O. P. boys still scattered through congress, if Pennsylvania and Missouri and certain other states should go right on getting plenty out of the treasury for continued relief work on behalf of Senator Guffey and Mr. Pendergast and such-like benefactors of the human race. Not that the ins are any greedier than the outs; they're merely improved in sagacity since the days when nearly all the smart wolves seemed to be Republicans and nearly all the half-witted sheep seemed to be Democrats.

But Passamaquoddy might as well make up its mind to being sort of neglected from now on. Maine, she ain't been actin' right.

France's Inconsistency.

FRANCE has just lent a vast sum to Poland, and Poland, it is admitted, will use the money to increase its war strength. If Poland should repudiate the debt and default on the interest, a howl will go up from "La Belle France" that'll ring around the world.

But, of course, it will continue to remain an evidence of soulless greed for Uncle Sam even to intimate that France might pay us a little something on account against the enormous amount she owes us for borrowed money which she has used to build up her army and also, it would appear, to pass along to Poland so that Poland may build up hers.

If consistency be a jewel, France is practically out of jewelry.

Cat as Prized Weather Forecaster

On Japanese ships in the Seventeenth century the tortoise-shell tomcat was so highly prized as a weather forecaster, because it would rush up the mast before the approach of a storm, that it was often classed as a member of the crew and given a rank higher than that of the cook.—Collier's Weekly.

Friendly Encouragement

A friendly slap of encouragement on the shoulder, a little well-timed smile of approval, a cheerful look for a comrade when he slips—these are the inexpensive little things that get the important big results.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for February 7 JESUS THE LIGHT OF THE WORLD

LESSON TEXT—John 8:12, 31, 32; 9:1-11. GOLDEN TEXT—I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life. PRIMARY TOPIC—When Jesus Passed By.

JUNIOR TOPIC—When Jesus Passed By. INTERMEDIATE AND SENIOR TOPIC—How Jesus is the Light of the World. YOUNG PEOPLE AND ADULT TOPIC—Walking in the Light With Jesus.

"The Light of the World Is Jesus!" Who does not remember with what delight we as children sang "Come to the light, 'tis shining for thee . . . The Light of the world is Jesus." How precious was the truth that thus flooded our souls. Jesus was the light, and just as the sunlight shed its glory on an awakening world at dawn, so he shed abroad the light of God in the hearts of men. The writer of these lessons pens these words with the prayer that as this portion of God's Holy Word is studied and taught, the light may break forth on many a soul caught in the bewilderment of this dark world.

Our study centers around three simple words fraught with beauty and rich in meaning.

I. Light (John 8:12).

The text says, "Then spake Jesus." When? Just after he had silenced the hypocritical accusers of a woman taken in sin, and had spoken the word of peace to her troubled soul. She was to "go and sin no more" because she had met him who is the "Light of the World." They that follow him "shall not walk in darkness"; they are the children of light, they have the very light of life.

II. Freedom (vv. 31, 32).

Free! Four letters, but what depth of meaning! Chains have fallen off, prison doors are open. The one who was bound is free.

But here we are concerned with an even more important liberty, the freedom of the soul. Many there are who boast of their independence but who are naught but slaves. Jesus said, "Whosoever committeth sin is the servant of sin" (John 8:34), not its master.

How shall they be freed? Note three things in these verses. (1) A condition, "If ye continue in my word." This means not only a profession of faith but a daily appropriation and realization of his truth in life. (2) A promise, "Ye shall know the truth." The philosophies of men profess to be a seeking after truth but how few there are who look to the one place where it can be found—in Jesus Christ. (3) A result, "the truth shall make you free." Truth always sets free. Men are enslaved because, as in some foreign lands, they have not had the opportunity to learn the truth (we have failed to send it) or because they have rejected it.

III. Vision (John 9:1-11).

This is one of the most instructive passages in Scripture. A man born blind is seen by Jesus. His disciples note his intent and begin to theorize on a theological question. They had learned so little of the compassionate spirit of Jesus that they saw in this blighted life only an illustration of a theological theory. May God help us that we may never be so blind.

Jesus goes at once to work. He was in the world to do the works of God. He and the Father always work. Let us follow his blessed example. "The King's business requires haste." Let us work "while it is day, the night cometh when no man can work."

By a loving and gracious act, Jesus stirs in the heart of the man that faith which causes him to go, to wash, and, glory to God, he sees! Such a personal experience of the divine power of the Son of God leaves no doubt in the man's mind that the one who caused him to see "is a prophet." All of a man's doubts concerning the deity of Jesus Christ disappear when he becomes his Saviour.

Read the remainder of the chapter and note how this man's faith is victorious in the face of trials, persecution, and even of excommunication; for outside the temple he met Jesus and takes him as his Lord. As Dr. Scroggie puts it, "His excommunication was a promotion. He went from the synagogue to the Saviour."

Thinking of Self Only

Show me the man who would go to heaven alone, and I will show you one who will never be admitted there.—Feltham.

Laws to Fit the People

Laws should be like clothes. They should be made to fit the people they are meant to serve.—Clarence Darrow.

Divine Confidence

Divine confidence can swim upon those seas which feeble reason cannot fathom.—W. Secker.

Beware of Hypocrisy

There is nothing against which our Lord warns us so terribly as hypocrisy.

Going to the Party?

WHERE is the party? At Mrs. Smith's on Walnut street and it looks awfully much as though the principals were caught by the candid camera. Luckily, however, they're perfectly groomed for their parts:

Introducing Janet. Janet in her jumper (Pattern 1996) is asking Mother which glassware to use. Her plaid blouse in taffeta makes her feel very dressed up. Mother chose this style because the many possibilities for change make it a wardrobe rather than a dress and she knew it would be easy-to-make. Your own little girl may have this same ensemble in sizes 6, 8, 10, 12, and 14 years. Size 8 requires 1 3/4 yards of 39 inch material for the jumper and 1 1/2 yards for the blouse.

Mother, the Hostess. Mother is the perfect hostess, calm and assured, because she knows her all-occasion frock with its sprightly crisp apron (Pattern 1220) is becoming and appropriate. For house wear she made up this model in print. She is wearing here the crepe version and knows that it will be delightful for later on in cool black and white. It comes in sizes 34, 36, 38, 40, 42, 44, and 46. The dress and apron in size 36 require 5 1/2 yards of 39 inch material. The apron alone requires 1 1/2 yards.

And the Guest. The guest just arriving is wearing her trigest Sew-Your-Own. She likes it because the puffed shoulders and swing skirt make

The Clock of Time Now is the constant syllable ticking from the clock of time. Now is the watchword of the wise. Now is the banner of the prudent. Let us keep this little word always in our minds, and whenever anything presents itself to us in the shape of work, whether mental or physical, we should do it with all our might, remembering that Now is the only time for us—that Now is ours; that Then may never be.
