

### Household Questions

Rugs should be turned around every six months. Frequent turning causes them to wear evenly.

**Coddled Apples**—Two cups boiling water, one or two cups sugar, eight apples. Make a syrup of sugar and water, boiling five minutes. Core and pare apples; cook slowly in the syrup; cover closely and watch carefully. When tender, lift out the apples, add a little lemon juice to syrup and pour over apples. The cavities in the apples may be filled with jelly or raisins.

Clear boiling water will remove tea stains from table linen.

Cretonne slip covers will retain their color better if washed in bran water.

To make perfect muffins combine all dry ingredients, then add liquids quickly, stirring but not beating. Do not stir after ingredients are moistened. Fill muffin pans two-thirds full and if mixture looks lumpy it will smooth out during baking.

Keep the top on the milk bottle so the milk does not absorb ice box or refrigerator odors from other foods.

**Home Made Crackers**—Sift together one-fourth a teaspoonful of salt and one cup of pastry flour. With a knife or tips of the fingers work to a dough with water, sweet milk, or thin cream (the last is preferable). Knead slightly—just enough to get into shape—then roll into a very thin sheet, stamp out with cutters, or cut into rectangular pieces with a sharp knife, prick with a fork, and bake a delicate brown.

Agateware is easily chipped, so don't scrape out food that becomes stuck in it.

A little salt added to an egg before beating makes it light and easier to beat.

**Sweet Prunes**—A very delicious as well as unusual way of serving prunes for breakfast is to soak them in fruit juices. Whenever a jar of fruit is opened save the juices and put a few prunes in the jar. When they have become swollen they are ready to be eaten.

Gives you 1 1/2 Teaspoonful per Gallon of Spray.

**Losi Virtues**  
Virtues lose themselves in self-interest, as streams lose themselves in the sea.—Rochefoucauld.

**HELP KIDNEYS**  
To Get Rid of Acid and Poisonous Waste  
Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.  
Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.  
You may suffer nagging backache, persistent headaches, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.  
In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!

**DOAN'S PILLS**

**SLEEP SOUNDLY**  
Lack of exercise and injudicious eating make stomachs acid. You must neutralize stomach acids if you would sleep soundly all night and wake up feeling refreshed and really fit.

**TAKE MILNESIAS**  
Milnesia, the original milk of magnesia in wafer form, neutralizes stomach acid. Each wafer equals 4 teaspoonfuls of milk of magnesia. Thin, crunchy, mint-flavor, tasty. 20c, 35c & 60c at drug stores.

## what Irvin S. Cobb thinks about:

**Windsor's Finances.**  
**SANTA MONICA, CALIF.**—By latest reports, the duke of Windsor must start life as a married man reduced to a personal estate of only about \$600,000, plus guaranteed annual remittances amounting to but a beggarly \$100,000 more.

To be sure, as the old saying is, two can live as cheaply as one—if one of the two happens to be a goldfish or even a canary—but otherwise the notion hasn't worked out under modern conditions, wives these days being what wives are these days.

Still, they do say Mrs. Simpson is pretty handy with a skillet, which, on the cook's Thursdays off, ought to save getting in extra kitchen help; and what with there being no crown jewels to keep polished and installment houses just crying to help all young honeymooners out—you furnish the bird, we furnish the nest!—Well, by scrapping, the couple should get by, don't you think?

**Washington Rumors.**

HOW rumors do float about—especially in the neighborhood of Washington. Well, Washington always has been kind of a windy place. First we hear a boom is to be started for Mrs. Roosevelt to succeed the President at the conclusion of his term. This is promptly denied and the question arises—how is that loyal soul, Uncle Jim Farley, going to stand the strain of waiting until Sistie Dahl gets old enough to run?

Uncontradicted as yet is the other report that the White House craves to revive the NRA, under another set of initials and—let us hope—with a better-looking Blue Eagle than that first one was.

**"Sweeping" Inquiries.**

AFTER every major disaster which conceivably was preventable, we have a "sweeping inquiry" or a "searching probe"—it depends on which phrase the reporters like best—to fix the blame. Rarely does anything come of this, but it must indeed be a great consolation to the widows and the orphans of the victims.

Seemingly, it never occurs to anyone to make the said investigation before the tragedy occurs, with a view of searching out defective mechanism or imperfect construction then.

We are a great people for shutting the stable door after the horse is gone—shutting it good and tight so the probers may have leisure for their probing.

**Defying a Glacier.**

IN ALASKA, the Revell family are defying Black Rapids glacier which, without seeming provocation and after remaining perfectly calm for several million years, suddenly started coming down upon them, rumbling and roaring and acting up generally as it advances. Its icy snout is only about a mile away from their roadhouse now, but they're still serving ye olde blue plate special—choice of jello or stewed prunes—as usual.

The Revells couldn't be New York people. In New York, everybody strives to move at least once every two years, whether there's reason for it or not. A lady flat dweller there likes the scriptural promise of a house of many mansions because it gives her such a warm glow to think of spending eternity shifting from one mansion to another, re-decorating as she goes.

**Crime and Punishment.**

AT A recent trial in New York for a hideous murder, the lawyer for the killer—who, incidentally, had confessed—wound up his plea with this old and reliable and beautifully logical standby:

"Putting this man in the electric chair will never bring back the woman he slew—remember that, Gentlemen of the jury."

But putting a brutal killer in the electric chair will never bring him back either, which, after all, is the main idea, isn't it, Gentlemen of any rational jury?

**Selecting Indian Chiefs**

In some tribes, such as the Iroquois and some Pueblo tribes, certain chieftaincies were always selected from a particular clan. While there were hereditary chieftaincies among certain other groups, as a matter of practice such offices were usually elective. It is possible that the political system of the Iroquois influenced the democratic style of government of the United States. Probably the only example in North America of a power analogous to that of a despot was to be found among the Natchez and neighboring tribes of the lower Mississippi. In this instance submission to the will of the chief was for the most part voluntary and based on religion.

## Golden Gate Bridge Is Nearing Completion

Heralding the approaching completion of the Golden Gate bridge, world's longest single span, the work of stripping away the catwalk construction on the west cable was undertaken. This photograph, taken from the San Francisco side, shows a portion of the catwalk that had already been removed.
