Umatilla Project Fair, September 2-3-4

*With its HUNDREDS OF ADDITIONAL SHARP-EDGED TREAD UNITS, the De-Skidded U. S. Royal Master has introduced a new degree of safe, positive control over all wet weather skidding hazards. The clean-cut edges bite through slippery road film—wipe the water away—eliminate the very cause of skidding by giving every inch of the tread a safe, dry road contact. *Only* Royal Master has so many hundreds of gripping edges in *both* directions . . . *only* Royal Master gives complete control from both forward and side skids.

Revival Meetings Continue.

The series of gospel meetings at the Columbia school house continues with increasing interest with services each evening at 8:00 o'clock. Evangelist G. F. Mickey of Portales, New Mexico, is doing the preaching in this revival and the work is sponsored by the Church of Christ which meets regularly each Lord's day in the school building. The preaching is strictly Biblical and the whole work is ordered after the New Testament pattern. There is nothing sensational, and the feelings of all are respected. To these services all are invited with a sincere desire that everyone shall feel welcome. The simple New Testament truth will do the soul good. The meeting is scheduled to continue throughout the week and over next Lord's day.
