STATES HAVE OPPORTUNITY TO SHOW WARES IN HUGE BUILDING AT NEW YORK FAIR

NEW YORK, (Special).—Included in the limited edition book of unusual size and beauty which the New York World's Fair 1939 Incorporated has sent to state governors and, through diplomatic channels, to foreign governments, is the following text devoted to.

The Sovereign States of the Federal Union

George Washington, in declaring that the public felicity and prosperity of America depend upon the firm union and the unceasing cooperation of the sovereign American States, divined the future. The prosperity and the greatness of these United States have arisen from the free and unimpeded circulation of ideas and products in the world's greatest consumer market.

The Fair gives to each State the appropriate setting and opportunity to announce to the world its unique and indispensable contribution to America's rich and colorful civilization. The Fair contemplates a Hall of States, in the imposing Government group and flanking the structure which the Fair looks to the United States to build, to house the exhibits of the forty-eight States, and the Territories. Those wishing to participate more extensively will, in addition to their exhibits in the Hall of States, either erect their own buildings or obtain space to display their products and attractions in one or more of the exhibit zones.

The State of New York has naturally taken the leadership in the participation of the sovereign States of the Federal Union. Its total appropriations for Fair purposes may exceed \$5,000,000; and the New York State World's Fair Commission, appointed by the Governor, has been active for some time. Other States already are beginning to express enthusiastic interest in participating more extensively than at previous world's fairs. The many visitors will find a fresh cause for pride and enthusiasm in the revealing exhibits of their respective States. But beyond this, the exhibits will enable the States to make a persuasive presentation to all visitors of what they have to offer to the consumer and the tourist.

Before the Hall of States, at the New York Fair, a Brigade Might Pass in Review
