Advertisement for Union Pacific Railroad featuring the slogan "...please pass the potatoes". It includes an image of a baked potato, a photo of a family, and text describing the benefits of potatoes and the railroad's service. The text says: "Baked and served with fresh butter ... A GRAND FOOD! Science has discovered that potatoes provide extra Vitamin C, readily available calcium and phosphorus, and a high content of iron and Vitamin B—all important elements to good health. Interesting information, but not nearly so impressive as a great, big baked potato—nice and mealy—its russet jacket bursting—steaming hot—with a couple of pats of fresh butter, some salt and pepper... that's really something to eat. Yet, this is only one of a hundred ways of preparing and serving this marvelous food. Nowhere are such excellent potatoes grown as in the higher altitudes, the mountain valleys, the great plains of the West, and the Pacific Coast slopes. All of these regions are served by the Union Pacific Railroad. Efficient, rapid railroad service—specialized cars for safe shipment—brings potatoes to your table from this area every month of the year. Among the nation's railroads Union Pacific is in the front rank as a transporter of potatoes. Last year Union Pacific moved 41,422 cars of the world's staple vegetable—the nutritious, economical potato. Call on your grocer today—Pass the potatoes to the family tonight." The Union Pacific logo and slogan "Serving All the West" are also present.
