SNELL ADVOCATES REDUCTION IN SPEED

Voluntary reduction of 5 to 15 miles per hour in the habitual highway speeds of Oregon motorists may be instrumental in reducing autumn fatalities. Secretary of State Earl Snell said this week in opening a special campaign to make the last quarter the safest instead of the most dangerous of the year.

"Last year 37 per cent of Oregon's traffic fatalities occurred in the last three months," Snell pointed out. "If we can reverse the statistics this fall we will be in the vanguard of states which are seeking a solution to the problem presented by mounting autumn accident figures."

Assistance of city officials, civic groups, schools and newspapers throughout Oregon will be sought in the attack on autumn accidents, which numbered nearly one third of the total mishaps for 1936.

Snell quoted a survey completed by Yale Professor Charles J. Tilden which shows, amazingly, that the average motorist steps on the accelerator even harder in winter than in summer, although weather and road conditions are much less favorable. More than 30,000 automobiles were checked over a total period of four months, in mid-summer and mid-winter, and the cold-weather motorists averaged nearly 43 miles per hour, while their more leisurely summer brethren traveled a little over 39 miles per hour.

Besides imprudent speed, Snell listed the following factors the "man at the wheel" must guard against: Smooth tires and poorly adjusted brakes—both more deadly on wet pavement.

Presence of school children along the highway or at intersections. Glaring headlights after dark on rainy days.

Heavy traffic at football games and during the Thanksgiving and Christmas holidays.

Low visibility and slipperiness due to rain, snow, ice and frost.

STANFIELD RALLY ATTENDED BY MANY

Young people from the four corners of Umatilla county attended a Christian Endeavor pre-convention

rally at Stanfield last Friday evening to enjoy a program of talks and music, and social evening.

Cecil Warner Jr., of Hermiston, president of Columbia union, presided at the meeting, introducing the speakers. Mrs. Effie Ritchey of Milton gave a talk on the prayer meeting committee, Miss Catherine McMullen gave a talk on Christian Endeavor, and Ray Huett of Milton told of the plans for the union convention to be held December 3 to 5, extending an invitation from the Milton-Freewater groups to all to attend. Mrs. Bernice Bramer of Umatilla conducted the devotional. Music was furnished by the Stanfield group with Mrs. Don Sikes as accompanist. Glenn Warner of Hermiston directed pep singing at the opening of the meeting.

The next rally will be held Friday, November 19, at Heppner, and the final pre-convention rally will be held at Pendleton, Friday, November 26, in the form of a pot luck dinner at 7:00 o'clock in the evening. Endeavor groups will be notified of plans later.

ELECTRIC FENCE HAS FATAL LOAD

YAKIMA, Nov. 11—Falling into a farm fence carrying 6 volts of electricity, Maurice Harmon, 16, son of Dr. H. W. Harmon of Toppensish, was killed near here today. Young Harmon with two companions was returning from duck hunting on the Yakima river and was walking along the fence, officers said. Harmon's feet and clothes were wet and it was muddy where he fell, they said, which probably hastened his death.

"ELECTRIC FENCING"

In choosing your electric fencing there are several things to bear in mind:

FIRST—Does the controller have power to turn stock.
SECOND—Does it have relayed current, so that the current is off and on safely.

THIRD—Is the controller equipped with safety devices such as fuses, flasher lamps, etc.

FOURTH—Does the company insure you for \$10,000 against all injury to self or livestock.

FIFTH—Is your machine approved by State Dept. of Labor and the state approval on the machine.

Don't Take Chances
As did the farmer at Yakima, Wn., November 11, 1937, causing the death of Mr. Maurice Harmon.

Mr. N. J. Vanskike
"Vigorbilt" Hatchery
Hermiston, Oregon

Dear Sir:

The White Leghorn pullets purchased from you about three years ago were far superior to any I have had since from other hatcheries. As I want to be sure this time of placing my order early enough with you to secure your chicks, I am giving my order now for 300 baby chicks and 100 four week old pullets.

The pullets we had from you developed faster, were so much larger and laid better than those we now have.

Yours truly,
Chris P. Brown
