Now Coleman OIL BURNING HEATERS

Equipped with AUTOMATIC TEMPERATURE CONTROL

Now Coleman Oil Burning Heaters maintain "set" temperatures when equipped with automatic temperature controls. This extra equipment consists of a wall thermostat, an oil valve and a transformer, and is as easy to install as an ordinary doorbell.

Overheating is prevented. Comfortable, healthful temperatures are always assured. No watching or adjusting is required. Simply set the thermostat dial and the heater automatically keeps the room at the temperature desired.

For more comfortable, more healthful, more convenient heating service, consider these new features: Heat-Reflector Doors... Heat-Radiating Pins... and the Coleman Fuel-Saving Burner.
