The high school has a very modern cafeteria at which students and teachers may obtain a rounded out menu for not more than seven or nine cents. The cafeteria is not being patronized by the students as it merits and parents are being asked

Out of 10,000 ARTICLES IN MY STORE I CAN HARDLY THINK OF A THING TO ADVERTISE!

I sold all but one of my \$12.00 horsehide coats. Must Save that. Sold all but three of my heavy, high collar sweaters, at heavy reduction—must be saving with them. Yesterday I sold nine raincoats to one man who is going to keep the whole family dry—But your family may be smaller—I have three left. Come In.

Three feet of snow is reported in the mountains and coming this way. Get ready—4-buckle overshoes at only \$2.49. I sold over 200 pair of wool cashmere socks at 25c a pair—Plenty left to wear with those 4-buckle, all rubber overshoes, \$2.59—Best around the barn yard.

We noticed you had a bad cold—Use KLEENEX, 2 boxes for 25c—it is the sanitary way.

A man can see a bargain in a pair of silk hose. When told the price of one pair was 79c, he bought three pair—His wife had been paying much more.

Try our Buch-Hect Kiddie Kicks, they are going strong, only \$1.69.

Good buys in wool blankets—Ladies' winter coats, caps and mittens.

to urge their children to make use of the cafeteria facilities. Parents are also invited to visit the cafeteria and sample the menu so they may know of its quality.

A proposal was made Tuesday night at the Commercial club to improve the old exhibit building on the Community Park grounds, fitting it for a public meeting place for all organizations. This is the project that many have been asking for, and now that it is here every citizen should support it. The building is a very direct part of the park facilities and will be made available to every citizen in this section when completed.

Plans are to line the walls and ceiling of the building, lay a floor and install kitchen facilities, in order that the building may accommodate all types of meetings. Only a small fee will be charged for its use and one individual should be directly in charge of renting the building.

The large exhibit building and auditorium on the grounds is now practically useless as it stands except for the purpose of giving dances. There are no kitchen facilities, no chairs, and the building is difficult to heat—it is not serving the purpose those who contributed toward it expected it would. This is through the fault of no one individual. The floor of the building is being protected against possibilities of damage from food stuffs or water, but there are not sufficient funds to complete it in a desirable manner.

The club really worked on this problem at their meeting Tuesday and finally concluded to appoint committees to work with other committeemen and start the ball rolling toward the goal of securing improvements on the old exhibit building. It seems to be in the right direction. People who have contributed to the park will begin to see definite accomplishments at the park. Let's back the plan one-hundred per cent and get this thing completed.

Now is the season of the year when we usually write about the Pilgrims and their sacrifices and their thankfulness for their rewards, but we are going to pass that by this time and enumerate some of the things for which we should be thankful.

We are fortunate to be living in a nation where we may have individual freedom to act in accordance to the laws of society, under a constitution that was composed by the greatest body of men ever to assemble in the halls of our congress.

We may practice religious freedom, following the dictates of our own conscience.

We live in a rural community where we are not affected directly by the turmoil within the unions. The life in most rural communities is simple and as God intended we

should live and work. Few people there are who have not sufficient to eat and clothing to keep them warm. And for these things we should give thanks.

Occasionally we get to the city to see what the other half of the world is doing but are glad to return to the routine life of our homes.

Give thanks on this Thanksgiving season for all that is good and wholesome.

STANFIELD

By Mrs. J. M. Richards
 Your correspondent would consider it a friendly act if anyone having news would communicate with her.

The Ladies Aid of Stanfield met in the church parlors Thursday afternoon with Mrs. G. E. Greathouse presiding. The sum of forty dollars was turned into the church treasurer to help balance the budget. Final plans are being made for the annual bazaar, December 11.

At the conclusion of the business meeting the following "mothers" program was given with Mrs. Troy Coleman in charge: Reading, Mrs. J. M. Richards; vocal solo, Mrs. F. S. Lyon with piano accompaniment by Mrs. Don Sykes; A talk on "Heroines of the Bible" by Mrs. Davies; piano solo, Mrs. Don Sykes; and group singing. Tests Show Quints "Identical".

CORVALLIS—Scientists have concluded that the Dionne quintuplets are monozygotic, that is, developed from a single egg, and thus correspond to identical twins, reports Mrs. Sara Prentiss, professor of child development at Oregon State college. Mrs. Prentiss, while doing graduate work in the east, was recently invited to attend a special conference of scientists who visited the quintts and heard detailed reports on their progress. The percentage of difference among the five famous sisters is no greater than that expected between twins known to be identical, the scientists reported after many tests and measurements.
