NOTICE

To Patrons of the Umatilla Electric Cooperative Association:

Any wiring done on residences or buildings coming under REA lines will conform to REA government specifications if contracted by me.

The first house wired on the project was that of Chas. Keller in Columbia district, and due to lack of proper information the house was wired under the Oregon State Electric code.

Recommended alterations are being made in the wiring job that will bring it up to REA regulations.

I will be glad to make specifications on any wiring job on the project and can be reached in Hermiston.
