Ground Work Finished.

The Umatilla Project Fair board met Thursday afternoon to deliberate over plans for a bigger and better fair in 1938.

Each year the fair board has found it necessary to pay out not less than \$400 in labor accounts in getting the grounds ready for the show.

ey into the treasury as an operating account for another year.

The fair board plans to arrange the program to allow no slack moments in the day's entertainment, and with the cooperation of every super-intendent and every person on the project, a bigger and better show should be staged this year.

Adequate Plant.

Analyze the record made by the basketball team of Hermiston Union high school the past season and you will see why the team carried off the honors.

Until a year ago the boys were forced to practice in a building that was not adequate for the needs of the school and this was one of the biggest handicaps.

Because of this and together with fine coaching the team has gained experience that has not only carried them through this season but will enable future teams to walk away with more honors.

CHRISTIAN SCIENCE CHURCHES

"MAN" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 6.

The Golden Text was, "As many as are led by the Spirit of God, they are the sons of God" (Rom. 8:14).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "In the beginning God created the heaven and the earth. And God said, Let us make man in our image, after our likeness. So God created man in his own image, in the image of God created he him" (Gen 1:1, 26, 27).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures by Mary Baker Eddy: "Immortal man was and is God's image or idea, even the infinite expression of infinite Mind, and immortal man is co-existent and co-eternal with that Mind. He has been forever in the eternal Mind, God; but infinite Mind can never be in man, but is reflected by man. The spiritual man's consciousness and individuality are reflections of God" (p. 336).
