

EVERYTHING IN READINESS FOR THE HERMISTON HERALD FREE COOKING SCHOOL

HOME-MAKERS WELCOMED TWO DAYS AT OASIS THEATRE STARTING MON., MAY 9

The Hermiston Herald Motion Picture Cooking School entitled "Star in My Kitchen", will be the real community attraction for two days at the Oasis theatre starting Monday, May 9, and continuing Tuesday. The doors will open at 1:30 each afternoon and the motion picture will start at 2:00 o'clock with only one showing each afternoon.

The motion picture cooking school will be free, and an added attraction will be the many gifts offered during the school, and by local merchants.

This fascinating and different cooking school is open entirely free to every woman in the community, and the Herald as well as merchants extend this last invitation to join in the home-making lessons and jolly entertainment for at least one day during the two days, Monday and Tuesday, May 9 and 10.

The Motion Picture Cooking School will be a practical rally of home-makers to contribute fresh perspective for the "same old job", the monotonous day-in-and-day-out job, yet the most important business in the world. Just as men have their annual conventions, where they listen to lectures from specialists, local women will have their convention to consider home-making problems.

No "false-front" camera-beautiful kitchens satisfied these specialists. They insisted on working in complete, compact, modern kitchens, which actually reflect more scientific ingenuity and careful planning than any living room.

Recognizing the demands of home experts, the producers of "Star in My Kitchen" signed all-star kitchens, with an all-star cast, adding a continual procession of close-ups, so that every seat in the Oasis theatre is a good seat for this amazingly-pictured home-making course.

Everyday happenings have been dramatized in the plot of "Star in My Kitchen". Behind the sparkling humor and suspense that are so necessary to screen stories was a deliberate plan—an ambitious determination to carry instruction, inspiration, and worthwhile home news to women in every community.

The camera took its time and it took its close-ups, so that every person in the Oasis theatre will have a "large as life, and twice as natural" view of each operation. There will be no "orchestra circle" at this entertainment, since the back row guests of the Herald will have an equal chance to peer into the busy mixing bowl, watching the deft steps of measuring, creaming, sifting, and thorough mixing, not overlooking the final work of baking, roasting, French-frying, or freezing.

For this is no half-hearted demonstration. Each delicious dish will be completed and shown with such realism that there are sure to be hungry "ohs" and "ahs" from the audience. If any stray husbands get into the theatre, they are certain to ask, "When do we eat?"

Keeping up-to-the-minute on fresh discoveries to ease the home manager's burdens, is one of the jobs of the household specialists who supervised the demonstrations in this profitable cooking school. Because they have devoted years of training and study to home problems, these capable experts know how to help other housekeepers to run their homes more smoothly, interestingly and economically. Under the glow of their enthusiasm and creative skill, a well-cooked meal becomes elevated from "just a job" to an artistic achievement, requiring skill and imagination.

Not only does this picture show new dishes, styles, and interesting ways to serve everyday meals and party feasts, but it demonstrates how to make intelligent use of the ingenious mechanical servants that take the guess work out of house work.

What about recipes? Naturally every guest of the Herald will want to test these tantalizing cures for menu monotony. Free recipe sheets will be distributed daily. And other things will be given away—valuable gifts that will find long and useful life in many a home.

Now—An Easy New Way To Make Clover Leaf Rolls

So light and tender—they're simply grand with coffee, salads or Sunday supper

• Everyone enjoys tender, tempting rolls, light as a feather. But no woman likes to be tied down too long in making them.

That's why every home-maker will welcome this easy new recipe at the right. For you can mix, let rise, shape and bake your rolls in two and one-half hours! And they're just as light, just as tender, just as delicate in flavor as when made by the old-fashioned method.

Mix up a batch tomorrow morning and let it rise while you're working around the house. The recipe is so simple that your rolls will be a success the first time you try them! At lunch time they'll be in tempting, golden rows, fit for a king. Once your family tastes these Clover Leaf Rolls, they won't let you rest till more appear. But with this easy new way of making, you won't mind in the least.

CLOVER LEAF ROLLS

- 2 compressed yeast cakes
- 1/2 cup lukewarm water
- 1 teaspoon sugar
- 3 tablespoons Spry
- 2 teaspoons salt
- 1 tablespoon sugar
- 1/2 cup boiling water
- 1 cup milk
- 3/4 cups sifted all-purpose flour (about)

Crumble yeast into small bowl or cup. Add lukewarm water and sugar and set in warm place until it becomes light and spongy (about 15 minutes). Combine Spry, salt, and sugar in large bowl and add boiling water. Stir until Spry is melted, then add milk. Add flour gradually, mixing very thoroughly,

until a stiff dough is formed.

Place in large bowl greased with Spry, brush top of dough with Spry, cover, and let rise in warm place until double in bulk (about 45 minutes). Grease hands thoroughly with Spry, take a small portion of dough, and squeeze between thumb and forefinger into small balls. Place three balls in each cup of muffin pans greased with Spry. Let rise in warm place until double in bulk (about 40 minutes). Bake in very hot oven (450° F.) 15 minutes. See what light, tender, fine-grained rolls Spry makes. Whole process, including baking, requires about 2 1/2 hours. Makes 2 1/2 dozen.

(All measurements in this recipe are level)

COVERED WINDOWS IN CARS ILLEGAL

While one sees an occasional car window which has temporarily been covered with wood or cardboard, this practice is both illegal and dangerous. The law forbidding the use of any non-transparent material upon the windshield or rear window, applies also to the side-wings and windows.

Vision from the driver's seat of an automobile is poor enough at best without obscuring it further by putting stickers and cards, except those required by law, against the windshield or covering the windows with paper. If you value your own skill and reputation as a driver you will have broken windows replaced, or put up with a draft on the back of your neck until you are able to do so.

CONTROL OF PEA WEEVIL DISCUSSED

Pea weevils may now be controlled, even on huge acreages such as are common in the Pacific northwest, but control campaigns need to be directed by trained, competent men if adequate results are to be obtained.

Such is the conclusion of the Pacific northwest cooperative pea weevil control project committee, which consists of state and federal entomologists from Oregon, Washington and Idaho. The recommendations of this committee have just been issued by the agricultural experiment station at Oregon State college as Circular of Information No. 183.

This contains previous suggestions on control procedure, although it does not give full directions, such as may be obtained from county agents or entomologists in the regions of heavy pea production.

A more complete, illustrated bulletin, giving the results of the successful cooperative federal-state research work carried on by the Oregon Experiment station will soon be issued.

PREDATORY ANIMAL CONTROL HUNTERS

Credit for locating the first coyote den goes to O. A. Philbrick of Wheeler county who routed it on March 16, according to a report made up by the predatory animal control board.

The rabies situation in Harney county is well under control. No rabid coyotes or livestock have been reported. The following hunters made the largest catches during the past month. Robert E. Long, 40; John R. Galbreath, 26; J. Chesley Hart, 21; Burton B. Barnes, 21; and George A. Copeland, 20.

Working all or part time, 57 hunters paid under cooperative Federal-State-County funds, took 415 pup and adult and 211 unborn coyotes, 37 adult and 8 unborn bobcats, and one mountain lion. Twenty-three WPA hunters reported taking 76 adult and 52 unborn coyotes and nine adult bobcats.

FFA BOYS COUNT CONCLAVE AWARDS

Members of the Pendleton chapter of Future Farmers of America, having returned from their annual state convention at Corvallis, today counted honors and found:

Keystone chapter award, made to but 15 groups in the state.

Frank Alexander and Eldon Harvey among 20 boys given State Farmer degrees.

"Champion Farm Practice" winners, with Alexander and Harvey forming the winning team.

The convention was the largest in FFA history, drawing 500 delegates from 48 communities.

The farm practice team had as a topic, "Feeding and Mixing of Feed for a Pregnant Sow," competing in the finals against Forest Grove whose boys spoke on "Farm Machinery."

Sam Porter and Bob Eaton won second in the farm mechanics demonstration contest, showing uses of rope. Rex Bohms and Mack Dallas demonstrated predatory animal control.—East Oregonian.

UMATILLA COUNTY HOME-MAKERS MEET WEDNESDAY, MAY 11

Umatilla County Homemakers will hold their annual "Homemakers' Day," May 11th, in the Little Theatre of the Vert Memorial at Pendleton. The program begins at 10:30 with exhibits of clothing, food, books and creative hobbies.

A discussion of new books will be given by Miss J. Elizabeth Olson, Umatilla County Librarian.

Women of the county will participate in a style revue, wearing dresses which they have made in project work this spring. Mrs. Eileen Purdue Buxton, Clothing Specialist of Oregon State college, will discuss appropriate garments of several types of figures. The garments, loaned by Pendleton stores, will be modeled by women active in extension work.

Three members will be elected to the County Home Extension Co-Committee to fill the terms now held by Mrs. Troy Coleman, Echo, Mrs. L. A. McClintock, Pendleton, and Mrs. W. A. Hinehine, Hermiston. Members of the nominating committee, making a report to the general assembly are: Mrs. R. B. Wilcox, Hermiston; Mrs. George Woodward, Adams; and Mrs. Cecil Young, Umapine.

The program for the day will be in charge of the County Home Extension Committee which is an advisory committee for the home demonstration agent. They are: Mrs. L. W. Owen, chairman, Pendleton; Mrs. E. J. Chastain, vice chairman, Freewater; Mrs. L. A. McClintock, secretary, Pendleton; Mrs. W. A. Hinehine, Hermiston; Mrs. Troy Coleman, Echo; Mrs. M. H. CaCarter, Pendleton; and Mrs. C. E. Plisk, Milton.

This committee extends a cordial invitation to all women to attend the Homemakers' Day program.

Strawberry Clover Likes Alkali.

A large number of inquiries are being received about strawberry clover, reports E. R. Jackman, extension specialist in farm crops at Oregon State college. This is a clover which has the interesting habit of living on alkaline land. Not much seed has been produced in Oregon to date, but several growers are becoming interested and plantings have been made for seed production in Baker, Amatiila and one or two other counties.
