How about Electricity!

When the state chief inspector remarked before the board of directors of the Umatilla Electric Cooperative association that the job of directing the new power system was no boy's play, it means a lot. Electric systems must be built properly to the last detail. To turn the switch at the substation on 136 miles of line and into several hundred homes care must be taken to see that many thousand small pieces of work are in conformity with electrical control.

Building lines, setting poles, stretching wires, setting transformers, wiring houses, placing meters and making connections are all safe and sound until the bolts of heating energy is turned on. Then comes the

test. That is what proves the workmanship. This is why the inspectors, under state law and federal regulations must do their duty.

The average user may have a lot of ideas about wiring being okay, but he should not forget that electrical engineering is a highly developed science to be directed by highly skilled specialist. It is poor policy to contend that you, as a common user, know all about the tricks of the trade, but best to conform to friendly and sane advice, given in your own interest and for your own security.

FULL GOSPEL MISSION
 A. B. Turner, Pastor

Sunday school at 10:00 A. M. Mrs. Howard Montgomery, Supt. Morning worship at 11:00 o'clock. Sunday morning sermon, "Water Baptism and Church Membership." Junior church superintendent, Lois Hutchison; Ladies' Aid president, Emma Felthouse; Sunday school superintendent, Opal Rainwater; Epworth League president, Rebecca Pierson; Church pastor, R. R. Finkbeiner.

CHRISTIAN SCIENCE CHURCHES

"A DAM and Fallen Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 8. The Golden Text was, "The Redeemer shall come to Zion, and unto them that turn from transgression in Jacob, saith the Lord" (Isa. 59:20). Among the citations, which comprised the Lesson-Sermon was the following from the Bible: "And God said, Let us make man in our image, after our likeness; and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image, in the image of God created he him; male and female created he them. And God saw everything that he had made, and, behold, it was very good" (Gen. 1:26,27,31).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spiritually followed, the book of Genesis is the history of the untrue image of God, named a sinful mortal. This deflection of being, rightly viewed, serves to suggest the proper reflection of God and the spiritual actuality of man, as given in the first chapter of Genesis" (p. 502).

HERMISTON BAPTIST CHURCH

"Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap. For he that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the spirit shall of the spirit reap life everlasting." Gal. 6: 7, 8. 10:00 A. M., Church school. 11:00 A. M., Morning worship and sermon.

CARVE OUT UTOPIA ON ALASKAN ISLE

Indians Lead Ideal Life Under Own Economic System.

San Francisco.—The little American-owned island of Annette, just off the coast of British Columbia, is becoming an economic Utopia, according to Roderick Davis, the island's "ambassador at large." All the inhabitants are Indians and Davis himself is an Indian. He was former mayor of Metlakatla, the only town on the island. In his present capacity as "ambassador at large" he has been to Washington to see that the inhabitants of the island got the best kind of a deal in the establishment of an island-community fish cannery, and his trip to San Francisco was to obtain better radio facilities for his constituents.

"Everybody on our island has a job," Davis declared. "We pay no taxes, lighting and cooking facilities are free, there are no such problems as unemployment, high cost of living or security or other aspects of the white man's burden." "Furthermore, we have solved the problem of the best kind of an economic regime, which is that of self-government based on municipal ownership of the things that provide the necessities of a civilized life.

"Our municipally owned cannery," Davis said, "shows a net profit of more than \$100,000 a year. The cannery is leased on a 50-50 basis. The surplus cash from the entire enterprise is banked with the United States government and pays 4 per cent interest."

Davis explained that the center of life on the island of Annette is in the town of Metlakatla, which was founded by Indians of the Thimishian tribe of Canada. Some 50 years ago they had become dissatisfied with the Canadian administration and moved over to the American island of Annette, which is part of Alaska.

Under the administration of Alaska, including Annette, the United States decided that only Indians should be allowed to occupy the island. Since then they have lived there blissfully and built up their own little economic system for making the island a veritable Utopia for themselves.

FIRST NATIONAL BANK OF HERMISTON

F. B. SWAYZE, President
 Member Federal Deposit Insurance Corporation

Lehman Springs.

The Girls' League of the Hermiston Union high school is planning a mother and daughter banquet to be held Friday, May 20, at 6:30 p. m., in the Union church. Rebecca Pierson is arranging a program of songs and skits.

Miss Esther Sibert and Esther McMullen have charge of the ticket sale and announce that the sale will close May 18 in order that the ladies preparing the banquet may know for how many to prepare. No single tickets will be sold and the cost will be 75 cents for two.

All mothers and friends of high school girls are invited to attend.

are too commonly affected by diseases that seriously reduce the size or quality of the crop. Therefore, all potato producers should give serious consideration to the prevention of these diseases, either by crop rotation, seed selection, seed disinfection, spraying or other control methods.

The Agricultural Experiment Station at Oregon State college published a bulletin, "Potato Diseases in Oregon and Their Control," which makes it possible for every potato grower to identify diseases in their potatoes right on their own farm. This bulletin is available at the assistant county agent's office for the asking. Farmers who are having difficulty at the present time should avail themselves of this bulletin.

AID FOR HIGHWAY GOAL OF CARAVAN

A large delegation from the towns along the river from Troutdale to The Dalles came through Hermiston Wednesday in auto caravan to develop further good will and support on the Columbia river water-grade highway from Troutdale to The Dalles.

The party was headed by a special committee of the following:

Bill Keeler, chairman, Cascade Locks; Minor Corman, Hood River; Walter J. Scott, Portland; Harold Loomis, Hood River; Mayor Blazier, Troutdale; George Christenson, Stevenson, Wn.; Zolo Brooks, Goldendale, Wn.; W. S. Nelson, The Dalles, and H. Sexton, The Dalles.

The caravan stopped in Pendleton and was due in La Grande and Baker today.

POTATO DISEASE PRECAUTIONS

Potato growing is an important industry in Umatilla county. Observations on the project over a number of years indicate that potatoes

SCHOOL NOTES

A tennis tournament will be held here Friday and Saturday of this week in which teams from nine schools will participate. They include Pilot Rock, Pendleton, Echo, Stanfield, Hermiston, Umatilla, Irigon, Helix and Heppner, which makes a longer entry list than at any previous tournament staged at the local school.

Pre-tournament dope is that Hermiston is the defending title holder not having lost a match in two years. Pendleton is said to be the strongest competitor for the title.

Play will begin Friday at 9:00 a. m. and Saturday at 8:00 a. m. on the local courts. Stanfield and Umatilla have loaned the use of their courts if outside play is necessary to prevent a delayed schedule.

Two baseball games were played with Umatilla Tuesday on the local athletic field. Umatilla won the first game in an 8 to 2 score, and Hermiston the second game in a 7 to 0 score. The only change in the lineup for the two games was a shift in the pitcher's box.

The county music festival was held at Hermiston last Friday in the high school auditorium during National Music Week. The auditorium was packed to overflowing indicating one-hundred percent more people in attendance over last year.

More than 700 students participated from schools at Echo, Stanfield, Hermiston, Umatilla, Cold Springs and Columbia.

J. A. Yeager, county school superintendent of Pendleton, who was present expressed his pleasure at the success of the event.

Among numbers given were selections by the high school orchestras, rhythm band, intermediate choruses, primary choruses, harmonica bands, upper grade choruses, high school choruses, combined choruses and grade school orchestras.

The annual junior prom will be given Friday night in the high school auditorium honoring members of the senior class, teachers and alumni. The hall is being decorated in the grape motif to represent a Valecian garden and music will be furnished by the Whitmanians of Walla Walla. This orchestra plays for all college and fraternity dances on the Whitman college campus and is rated as "extra special."

The annual sneak day was observed by members of the senior class over the week end. The party was chaperoned by Mrs. Fred Hensel and Ladrew Moshberger on a trip to
