NEW CLOSED TRUCK FOR CREAMERY

The Umatilla Cooperative Creamery is adding a closed truck to its equipment to be in service in the near future. The truck is being built by O. O. Felthouse and Gus Swanson on a Ford chassis and will be ready for route service soon, according to M. G. Hedwall, manager of the creamery.

The closed truck will be kept cool by ice compartments in which butter will be carried for delivery to patrons along the route. It will take the longest of the three routes, carrying from 80 to 90 cans of cream. The truck travels approximately 2500 miles each month and carries one ton of butter to patrons. The closed truck with the ice compartments will prevent overheating of cream in the summer and freezing in the winter, aiding materially in keeping the grade high under the compulsory cream grading law.

After the truck is put into service cream will be picked up three times a week at the various stations and this service will continue until September 10, or until the weather cools. The new truck has a door on either side to aid in loading.

The creamery is now manufacturing 60,000 pounds of butterfat per month, and has three trucks bringing cream from patron's stations.

SAFETY DRIVING SCHOOL WILL OPEN MONDAY, JUNE 6

INSTRUCTION GIVEN ANYONE OVER 15

The first class in a safety driving school will be held in Hermiston Monday, June 6, at the city library, sponsored by Earl Snell, Secretary of State. Local officers will assist in the school which will begin at 6:30 p. m.

Anyone interested may register with Mayor F. C. McKenzie to receive this free instruction. The course will be open to anyone 15 years of age or older, and students will be asked to furnish their own cars. If it is found necessary to organize more than one class here, two or more students may use the same car by enrolling in different classes.

Everything a beginner has to know to become a capable driver will be taught at the safety driving school. The schools have met with a highly encouraging response in 27 other communities where they have already been held, according to E. L. Van Blaricom, state instructor from Mr. Snell's office, who will be in charge of the work here.

Drivers of some experience will find the school valuable in correcting faulty habits and improving their technique. Actual practice in driving in traffic will be afforded by the school to those students who have obtained instruction permits from state examiners or who already hold drivers' licenses.

"Experience with such schools has shown they have immense value in starting beginners off on the right foot," Secretary Snell states. "Experience has also proved that a driver's length of service is not necessarily indicative of his ability. The schools are worthwhile not only in teaching students the fundamentals of good driving, but also in impressing upon them the fact that good driving is an art which must be approached and studied seriously and practiced unremittingly."

This school is a part of the campaign of safety education sponsored by Mr. Snell to reduce automobile fatalities and accidents in this state.

AMSBERRY STORE IMPROVED AT BLAINE

The following article was taken from the Blaine Journal concerning the business of Mr. and Mrs. Guy Amsberry who operated the variety store in Hermiston for more than two years.

"The Amsberrys 5-10-15c store which has been owned and operated by Mr. and Mrs. Guy Amsberry some nine months, is to move to its new location over the week end, where the Amsberrys will be better prepared than ever to meet the wants of the public in their line.

"The Amsberrys purchased the Martin building some two months ago, but were delayed in making the necessary repairs and alterations owing to the inability of Elias Breidford, who was occupying a portion of the building to find a new location.

"About four weeks ago, carpenters started at work tearing out the partition, replacing the plate glass front, and plastering up the rear windows, getting it in readiness to house the very fine stock of variety goods which the Amsberrys have purchased especially for the new store.

"The Amsberrys are being royally welcomed to their new location by those merchants who will be their new neighbors, as is demonstrated by a page of appreciation advertisements."
