

FARM CO-OPERATIVE DIVISION

A MESSAGE TO EVERY MEMBER.

CANNING SCHEDULE

For July 5th to 9th.

8 to 11 A.M. 12 to 3:30 P.M.
 Mon.—Closed All Day.
 Tues.—Peas
 Wed.—Fruit, Berries Beets, Beans
 Thurs.—Peas
 Fri.—Fruit, Berries Beans, Beets
 Sat.—Peas

Shelled peas will be coming in next week. Place your order for them at once.
 HERMISTON CO-OP. CANNERY

DEFERRED PAYMENT MUST BE PAID

The provision in the Farm Credit Act of 1935 granting Federal land bank borrowers the privilege of deferring payments on the principal loans outstanding on June 3, 1935, expires July 10, 1938. E. M. Ehrhardt, President of the Federal Land Bank of Spokane, said today.

After July all Federal Land Bank borrowers will be required to make regular payments on the principal of their loans on each interest payment date.

President Ehrhardt said that despite the fact that many farmers were not required to make principal payments, over \$5,400,000 in principal payments was paid the Federal Land Bank of Spokane in 1937. This included \$1,381,000 in payment on extensions and \$2,212,000 in loans paid in full and special payments on principal, the balance of \$3,819,000 being regular principal payments.

He explained that farmers who have deferred such payments will need to make them later since they have, in effect, lengthened the terms of their loans. But they have the privilege of making additional payments on any regular installment date which may be applied toward paying off the principal sooner.

However, the temporarily reduced interest rates on all loans will continue until June 30, 1940. On most Federal Land Bank loans through national farm loan associations the reduced rate is 3 1/2 per cent a year, and for loans made directly from the banks, 4 per cent.

4-H CLUB NEWS

By NORMA GETCHELL

The Blue Ribbon Cooking club met Tuesday, June 28, at the H. M. Sommerer home. Demonstrations were given on quick bread making. Those present were Myra Getchell, Ruth McCulley, Beulah Ryland, Norma Getchell and Anne Sommerer.

By KAY KEENER.

The Columbia Stitches met at the H. M. Sommerer home Friday afternoon, June 24, at 2:00 o'clock, for their annual social meeting. The mothers of the members and a few neighbors were guests on this occasion.

A demonstration was given on stenciling by Ruth McCulley and Peggy Sommerer. Stencil designs and samplers were exhibited after which the following program was presented.

A song, "Whistle, Sister, Whistle," was dramatized by Ruth McCulley and Mary and Peggy Sommerer; an old-fashioned garden wedding was given by Dona Keener as the preacher, Mary Sommerer as the bride, Norma Getchell, the bridesmaid, Susan Knox, maid of honor, Peggy Sommerer, vegetable girl, Ruth McCulley, the groom, Myra Getchell, best man, Dorothy Knox, escort, Kay Keener, pianist, Beulah Ryland, soloist. The harmonica trio gave "The Bells of Saint Mary's," composed of Dona Keener, Ruth McCulley and Peggy Sommerer.

Group singing concluded the program, following which cookies and punch were served.

Gifts to OSC for Year Totaled.

Oregon State College—More than \$50,000 in gifts, donations and special grants was received by OSC during the past year, exclusive of aid through federal emergency programs. With federal grants added, the total was approximately \$117,000. Special contributions to the school of agriculture for carrying on research accounted for the largest non-federal grants. Another large gift was an income of close to \$9000 from the Mary J. L. McDonald estate for the purchase of additional land in the McDonald experimental forest. Among the gifts were hundreds of articles placed in the Hornor museum of the Oregon Country.

Hess May Speak at Morrow Pomona

Henry L. Hess, democratic nominee for governor of the State of Oregon, may be the speaker at the Morrow County Pomona Grange meeting which will be held Saturday, July 9, at Boardman. An effort is being made to secure Mr. Hess as a speaker, states Mrs. A. E. McFarland of Umatilla.

EASTERN CO-OP WHOLESALE TO TRAIN MANAGERS AT SUMMER INSTITUTE

(Co-op League News Service)

NEW YORK—With the problem of developing competent management for the many new cooperative stores which are opening in its territory its major concern, the Eastern Cooperative League is rapidly completing plans for its two-weeks Management Training Course at Massachusetts State College, Amherst, Mass., from July 31 to August 13. Since part of the institute is designed for cooperative members in general, the course has been broken into two sections. The sessions of the first week are planned as part of a general institute for board members, members of cooperatives and the public at large. During this section the management group will spend an hour a day considering cooperative management problems under the leadership of Waino Linna, field man of the Eastern Cooperative Wholesale. For another hour and a half each afternoon they will explore the realm of "Food Facts" led by Dr. J. H. Frandsen, head of the Dairy Industries Dept., of Massachusetts State College; other members of the college faculty; representatives of the Dept. of Agriculture and T. G. Castner, buyer for the Eastern Cooperative Wholesale.

Only the management students will remain for the second week which will introduce a "project period" when actual display, merchandising and management problems will be worked out by small groups of students and then discussed by the entire group. In addition, two hours a day are scheduled for bookkeeping instruction by Louis Englander of the Cooperative League Accounting Bureau and lectures by visiting cooperative officials. Professor James Drury of New York University, Herbert E. Evans of the Consumers Distribution Corp., and E. R. Bowen, Secretary of the Cooperative League of the U. S. A., and Dean H. V. Olsen, of the Tuck School of Administration and Finance, Dartmouth College, are among those scheduled for a series of evening round tables.

Dr. Leroy Bowman, formerly of Columbia University, Professor Rury, Dr. J. P. Warbasse, president of the Cooperative League, and Donald Montgomery, Consumers Counsel of the Department of Agriculture, will appear in the general institute program between July 31 and August 6.

Persons interested in attending should write the Eastern Cooperative League, 112 Charlton Street, New York City, for complete information.

OSC Catalog for 1938-39 Ready.

Oregon State College—The 1938-39 catalog containing the staff roster, institutional information and a list of all courses, has just been issued. The 429-page booklet also contains the calendar for the coming year, which shows September 19 to 24 as Freshman week, with registration for old students Saturday, September 24.

Deschutes Seed Growers Formed.

REDMOND—Some 55 growers representing 1175 acres of winter field peas have already signed provisional agreements indicating their intentions of affiliating with the newly-organized Deschutes Seed Growers association, announces County Agent Gus Hagglund. A constitution and by-laws are being prepared by the organization committee, and a tentative marketing agreement has been prepared and is being considered by the organization committee before being put in final form.

Edible Soy Beans Under Test.

EUGENE—Demonstrations to compare various varieties of edible sorts of soy beans and to determine their adaptability to Lane county conditions were started this year by William J. James of route 2, Eugene, and Glen Vaughan of route 2 Spring field, County Agent O. S. Fletcher reports. The varieties being tried are Hokkaido, Bansti, Jogun, Kura, Kanro, and Chusel.

CHEAP VETCH SEED BEST USED FOR COVER CROPS

Oregon-grown vetch and pea seed which becomes mixed either as to varieties or otherwise could profitably be used within the state for soil improving purposes, rather than placed on the out-of-state seed markets, says E. R. Jackman, extension agronomist at Oregon State college. Such seed, which has to be sold at a lower price, often demoralizes the general market, while if it were used within the state, it would not have this effect. The mixed seed is just as good as pure seed for use by Oregon orchard men in planting fall cover crops. A dollar and a half spent for this cheap crop seed will bring better returns than \$10 spent for commercial fertilizers, says Jackman.

SWEDISH COOPERATIVE EXECUTIVES COMING TO U. S. FOR CELEBRATION

(Co-op League News Service)

New York — Albin Johansson, president of Kooperativa Forbundet, the Cooperative Wholesale and Union of Sweden, and Axel Gjores, secretary and organization director, have been selected as members of the official delegation to the New Sweden Tercentenary Celebration according to a radiogram received yesterday by the Cooperative League of the U.S.A.

The Swedish delegation, made up of 41 representatives of the Swedish Cabinet, Parliament, Industry and Trade, Agriculture, Labor, Education, the Press and the Cooperatives will arrive at Wilmington, Delaware June 27, and will take part in the 300th anniversary celebration at Wilmington, Philadelphia, Washington and New York. After a brief visit in other cities the delegation will sail for Sweden, July 14.

Albin Johansson will speak over a nation-wide hookup of the Columbia Broadcasting System, Monday evening, July 11, 7:15 to 7:30 eastern daylight saving time.

UNIFORM LABEL FOR ALL CO-OP GOODS PLANNED BY CO-OP WHOLESALERS

(Co-op League News Service)

CHICAGO — Representatives of the five major cooperative grocery wholesalers in the United States, meeting here June 2 and 3 took steps to set up a system of uniform labeling for all Co-op label goods which will standardize co-op quality and make possible additional savings through the cooperative purchase of those goods used by all the wholesalers.

The uniform label plan provides that each label will include an informative description of the character of the product, including all available information concerning quality and grade and other information of use to the ultimate consumer. L. E. Woodcock, manager of the Eastern Cooperative Wholesale in describing the plan pointed out that this system would differ sharply from the so-called descriptive labeling used by private profit business. A set of standards for groceries will be prepared for the use of the cooperative wholesalers so that they may buy proper merchandise for the various labels. Oil, automobile accessories and electrical appliances will also carry standardized labels according to the plan.

The cooperative wholesalers represented at the meeting were the Central Cooperative Wholesale, Superior, Wisconsin; the Eastern Cooperative Wholesale, New York; The Cooperative Wholesale, Inc., Chicago; Consumers Cooperative Association, North Kansas City; and Midland Cooperative Wholesale, Minneapolis. T. A. Tenhune, buyer for the Central Co-op Wholesale, was elected chairman of the grocery committee of National Cooperatives, Inc., central organization of consumer co-op wholesalers, which will act as coordinating committee.

ROSS ASKS ICKES FOR HUGE COLUMBIA BASIN PROGRAM

To extend Columbia river's low cost power to residents throughout the Northwest, J. D. Ross has applied to Public Works Administrator Harold L. Ickes for an allotment of \$21,375,725 for transmission lines and substations.

This application was made public by the chief of the Bonneville project, who disclosed his plan for a super-power network to connect the hydro-electric projects of the Co-

FOR SALE OR TRADE — CHEAP 20 in. new Racine Threshing machine for grain or alfalfa. Will trade for hogs, beef cattle or pullets. F. W. Leaz, Hermiston, Or. 42-3tp

FOR SALE—UNITED MOTORS CAR Radio; 6 tube set in excellent condition. Call 84-R, Hermiston. 43-2tp

HORSES FOR FOX FEED WANTED —If you have one write A. Hackbarth, Echo, and I will call on you. 39-8tp

Approves Idaho and Umatilla Program

The Bonneville administrator revealed that he had recommended construction of Umatilla dam and the Snake River project in order to hasten the day when a coordinated navigation-power-reclamation development would meet the needs of an expanding northwest.

"Power and water—that is the vital combination for the people of Oregon and Washington and Idaho," he said. "Bonneville is the first completed step in our Columbia Basin program. It must be used unselfishly to help solve the navigation, power and land problems of the entire northwest."

The Ross proposal calls for an arterial system that will carry Bonneville power in every direction. It will be the foundation for a public-ly-owned transmission system to link up all of the future hydro-plants of the northwest, and connect with other major networks for economical interchange of energy: A major circuit will be a 230,000 volt line from Bonneville to Grand Coulee dam, with an additional circuit returning by way of Pasco.

Oregon Network Proposed

To serve Portland, the Willamette valley and the Oregon coast, Mr. Ross asked for a PWA allotment that will enable him to build a 110,000 volt line from Vancouver across the Columbia river, with a double circuit southward to Eugene, Bonneville-power would reach Eastern Oregon and Washington by a line of the same voltage extending from Pendleton to Umatilla and Pasco. Included in the application to Administrator Ickes is the proposal to connect the dam with Hood River and The Dalles.

Public Works funds would be used to construct a 230,000 volt line from Vancouver to Kelso. From there power would be transmitted at 110,000 volts through southwestern Washington to Aberdeen. A short link would connect the Bonneville power plant with the substation at Condit.

In his letter to Ickes, Administrator Ross declared the present \$3,500,000 appropriation from Congress would cover only a double circuit from the dam to Vancouver and

two 110 kilovolt lines. Pointing out the demand for power greatly exceeds the installed capacity of the dam, he said construction of the proposed transmission network would enable the government to recover its investment in Bonneville Dam at an earlier date. None of the proposed lines duplicates existing facilities. All are essential adequately to meet the present needs of the territory, he said.

Districts Need Power.

"These lines must be built at the earliest possible moment," Ross wrote, "in order to carry out the policy of using the power for the full benefit of domestic and rural consumers. We must reach the public districts now requesting Bonneville power, as well as the other districts which will be formed during the coming year."

AGENTS PREPARE DAM SITE

(Continued from Page One)

ceived in time but was approved by the chief of army engineers and the board of engineers. Money should be allocated to commence construction," he said.

"On two occasions the president said he favored the project if he thought he could find authority of law for that purpose. The attorney general is now looking into legal aspects and nothing can be done at this time."

"Immediate allocation of funds to permit utilization of the 'coming construction season following the summer flood now subsiding' is requested by Charles Baker, Walla Walla, president of the Waterways association.

"Construction of the Umatilla dam project without power facilities is estimated to cost \$24,000,000, Baker's letter points out. "Camp construction could be started at once. The first major contract for the construction of the south cofferdam, powerhouse skeleton structure and base of earth wing dam could begin within 60 to 90 days. It is our understanding that the project could be completed by September of 1940.

Program Conforms

"It is therefore requested by this association that the chief of engineers apply to the public works administration for an allotment of \$24,000,000 to the war department for the prosecution of the Umatilla dam project."

"A two-year program for construction of the project conforms to the requirements of the lending-spend relief bill which provides that all projects for which funds from it are used must be started prior to March of 1939 and must be substantially finished by September 30, 1940.

"The association points out this is entirely feasible providing the work period includes two full low water construction seasons (that is August to April inclusive.) In order to utilize the coming construction season following the summer flood which is now subsiding, it will be necessary to make an early start upon the work to be constructed in the south channel and to follow this as rapidly as possible with contracts for equipment and structures in the north channel, railroad changes and acquisitions of reservoir lands.

"Site of the dam has been explored by 24 borings which show favorable foundations for the structure. The wide river and the central island at the site simplifies the cofferdam and division problems, H. G. West, executive vice president of the Waterways association, says.

"Because of the experience gained in constructing Bonneville dam and the number of key engineers and draftmen who are now available for transfer to the Umatilla project, the two-year period is believed feasible. "Itemized schedule for the major contract operations proposed includes:

First Major Contract

"South cofferdam powerhouse skeleton structure and base of earth wing dam, estimated cost, \$4,400,000.

Completion of plans and specifications, August 1, 1938.
 Open bids, September 1, 1938.
 Complete to above ordinary high water elevation, May 1, 1939.
 Complete all work, September 1, 1939.

Contractor's earnings to May, 1939, \$4,000,000.

Second Major Contract

Equipment for dam, lock and fishways, estimated cost, \$2,500,000.
 Completion of plans and specifications, October 1, 1938.
 Delivery of equipment, January 1, 1940.

Third Major Contract

Lock, dam and fishway structures, estimated cost, \$9,600,000.
 Completion of plans and specifications, December 1, 1938.

Open bids, January 1, 1939.
 Complete work, June 30, 1940.
 Figures cited by Waterways association officials relative to another way of estimating total costs of both engineering and construction for the various features are:

Feature	Cost
Reservoir and flowage	\$ 7,250,000
Buildings and grounds	250,000
Diversion and cofferdam	1,750,000
Dam	7,000,000
Powerhouse	4,000,000
Locks	2,000,000
Fishways	1,750,000

Total\$24,000,000
 Unemployment relief values of the project would be high, it is pointed out. In addition to the approximately 3,000 men who would be maintained for the duration of the contract, many thousands would be benefitted indirectly.

Land Sale Notice.

NOTICE IS HEREBY GIVEN, That the undersigned, Sheriff of Umatilla County, Oregon, by virtue of an order duly made and entered herein by the County Court of Umatilla County, Oregon, on the 26th day of April, 1938, will on the 9th day of July, 1938, at the hour of 10 o'clock in the forenoon, sell to the highest bidder for cash in hand, at the front door of the Umatilla County Court House, Pendleton, Oregon, subject to a minimum price of \$40 therefor, to be paid in cash, at the time of sale, the following described parcel of land, heretofore by Umatilla County, Oregon, acquired for delinquent taxes, to-wit:
 Lots 3, 4, 5 and 6, Block 8, Newport's Addition to City of Hermiston, Umatilla County, Oregon.

R. E. GOAD, Sheriff
 Umatilla County.
