Think!
Consider this: 4 out of 5 property owners choose Capital Stock Company Fire Insurance because it provides definite protection at a known cost . . . because it is backed by financial surplus and capital stock as well as legal reserves . . . because it maintains local Agents for quick, courteous service when you're in trouble.
That's the kind of insurance YOU want! That's the kind of insurance WE supply.

YOUR home, furnishings, automobile and other possessions are valuable. They should be insured . . . not only against fire but every hazard that threatens. But think before you choose the type of insurance. There is a difference.
