**THEY SERVED WELL**

The members of the present board of directors of the Umatilla Electric Cooperative association have served the community for over fifteen months. They have met regularly twice a month and held many special meetings, many of which carried past midnight. In addition, during the days between meetings, they have given their time and attention to the work of directing the organization and to the thousand and one details of construction.

All this has been done for the "munificent" salary of \$3 per month allowed by the national REA. Notwithstanding, board members have given this public service with interest and devotion to the welfare of the many communities which are now being served by a modern power system. These men are all of fine character and substantial citizenship and members of the association may well consider themselves fortunate in having secured the service of such a board.

A new board will be chosen August 10th. It is wise to consider who are to succeed these men. None are seeking a return to the task of directing the progress of the system, but their experience and interest will be valuable if retained on the directorship. There is yet much to do. This is a cooperative system and every member of the association should take a personal interest in its management.

**CHRISTIAN SCIENCE CHURCHES**

LOVE was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 31.

The Golden Text was, "The Lord is good to all; and his tender mercies are over all his works" (Ps. 145:9).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And we have known and believed the love that God hath to us, God is love; and he that dwelleth in love dwelleth in God, and God in him" (1 John 4:16).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The Jewish tribal Jehovah was a man-projected God, liable to wrath, repentance, and human changeableness. The Christian Science God is universal, eternal, divine Love, which changeth not and causeth no evil, disease, nor death. . . . Divine Love always has met and always will meet every human need" (pp. 140, 149).

**Think!**

Consider this: 4 out of 5 property owners choose Capital Stock Company Fire Insurance because it provides definite protection at a known cost . . . because it is backed by financial surplus and capital stock as well as legal reserves . . . because it maintains local Agents for quick, courteous service when you're in trouble.

That's the kind of insurance YOU want! That's the kind of insurance WE supply.

YOUR home, furnishings, automobile and other possessions are valuable. They should be insured . . . not only against fire but every hazard that threatens. But think before you choose the type of insurance. There is a difference.
