DEANNA SINGS FOUR SONGS IN NEW FILM

The most thrilled girl in Hollywood is Deanna Durbin—and for a

(Continued Next Issue)

A kindergarten teacher was explaining to her class the meaning of the word 'collision,' saying it meant two things coming together unexpectedly. She asked little Tommy if he could give an example of the word, and he smilingly said "twins." We don't want to 'collide' with you but can't we 'come together' if you are thinking of buying a used car.

very special reason!
 For the first time in her life, the little singing star had a complete wardrobe of pretty clothes for a screen role. She wore them in her latest starring picture, "Mad About Music," a lavish Universal production set amid the romantic and picturesque Swiss Alps which starts at the Oasis theatre Sunday.
 "Oh, they're simply wonderful!" exclaimed Deanna as her eyes sparkled with delight upon getting her first glimpse of the pretty costumes as she reported to director Norman Taurog for her first day's filming. "Really, I didn't mind wearing that cotton dress and old blue coat all through my last picture. But—it's just that every girl loves pretty clothes."

As the star of "Mad About Music," the youthful Universal singer is as fashionably dressed as any debutante.

Among her array of things are frilly party frocks and beautifully tailored street suits.

"Mad About Music" is a delightful picture. It presents Deanna in a different characterization from those of her previous pictures, and in a mood and tempo entirely different. "Mad About Music" is a comedy drama. Only a few tears—and those in the most effective manner—intrude into the story of the little girl with the make-believe father and whose dreams come true.

COLUMBIA
 By Lois Hutchison

Two cousins were born in the Hermiston General hospital over the week end. They are Peggy Neill and Laura Juanita Allen. Their parents are Mr. and Mrs. Hugh Neill and Mr. and Mrs. Jack Allen.

Anne Sommerer and Vera Sisson entertained at a birthday party Saturday evening honoring Francis Lewis and Henry Sommerer. The following guests were present: Jane Jackson, Jim Jackson, Jesse Moore, Kenneth Benschel, Dorothy Knox, Joyce McCulley and the hostesses, Francis Lewis was an over night guest of Anne Sommerer.

 Bible Study Friday at 7:45 P. M.

CHRISTIAN SCIENCE CHURCHES
 "SOUL and Body" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Nov. 20.
 The Golden Text was, "Yea, in the way of thy judgments, O Lord, have we waited for thee; the desire of our soul is to thy name, and to the remembrance of thee" (Isa. 26:8).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "What know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own? For ye are bought with a price; therefore glorify God in your body, and in your spirit, which are God's" (I Cor. 6:19,20).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The Science of being reveals man as perfect, even as the Father is perfect, because the Soul, or Mind, of the spiritual man is God, the divine Principle of all being, and because this real man is governed by Soul instead of sense, by the law of Spirit, not by the so-called laws of matter" (p.302).

"NOW WHAT SHOULD I DO"

Asked the man who had just had a fire.

"I'LL TELL YOU"

replied the stock company fire insurance agent.

Let's hope you never have a fire. But if you should, it's a grand thing to know you can turn to your insurance agent for help.

He will look out for your interests, will see that your claim gets prompt attention. Accustomed to such emergencies, he knows just what to do—and does it.

Agency Service, that's what is called. You get it when you're insured in a stock company. And not only in emergencies but every day, the agent stands ready at your call.

Three Age Groups Where Tuberculosis Takes Heavy Toll

Babies under one year are safer today from tuberculosis than was the case in 1928. Ten years ago, 1,300 infants less than one year old died of tuberculosis in this country, while in recent years the annual toll has been 670. The disease is not inherited, but young children are liable to be innocent victims if they are exposed to persons who have active tuberculosis. Christmas Seals are enabling parents to learn more about tuberculosis, thereby protecting their children.

Young girls are particularly susceptible to tuberculosis. Intensive efforts, financed by Christmas Seals, are directed toward turning back the threat of this disease from young people. Many schools and colleges throughout the country recommend tuberculin testing and X-raying to discover whether or not their students have tuberculosis. Out of 200 persons who die every day from tuberculosis in the United States, 33 are between the ages of 15 and 25.

While more women than men are victims of tuberculosis up to 30 years of age, the toll among men 40 to 65 years of age is approximately twice that among women of the same age. Medical authorities emphasize the importance of parents being free from tuberculosis in order to reduce the danger of infecting their children. The anti-tuberculosis movement receives its main support from Christmas Seals.
