FOR RENT—FURNISHED APARTMENT for housekeeping. Electric stove and modern. Phone 78-R. Joe Dyer. 50-1tc

FARM CO-OPERATIVE DIVISION

A MESSAGE TO EVERY MEMBER.

MORE DECEMBER TURKEY POOLS

Two more pools will be held by the Eastern Oregon Turkey Growers' association during December, one on the 10th, 12th and 13th, and another December 30th and 31st. A clean-up pool will be held later. Growers have expressed a liking for the system of pooling one day and then skipping one day to permit picking time, and for this reason it is being continued in the next pool. Growers have been asked by the association to state preference of delivery day and time.

Clubbers Elect Officers.

The first meeting of the Columbia Stitches Sewing club was held November 22 at Columbia school. The purpose of the meeting was to elect officers for the new year. Kay Keener was elected president, Susan Knox, vice president, Mary Sommerer, secretary, Joyce McCulley, yell leader, Dorothy Knox, reporter. Other members are Peggy Sommerer, Donna Keener, Ruth McCulley, Myra Getchell and Lucille Weeks. The club will be led by Anne Sommerer.

COLUMBIA GRANGE ANNIVERSARY

The Columbia Grange will observe its second anniversary Friday, December 2, at a full course turkey dinner, followed by a "home talent" program, in which every member will take part. Persons having become members within the past year will be special guests of honor, as will those who sign application cards and give the required fee of \$1.00 for initiation and six months dues in advance. Mr. and Mrs. Claud Hanscom, Pomona Master and secretary, respectively, will be guests. The remainder of the evening will be spent in group games, contests and singing.

4-H ACHIEVEMENT DAY BANQUET

(Continued from Page One)
Clubbers Recognized.

First year: Ann Piersol, Peggy Todd, Myra Getchell, Norma Getchell, Beulah Ryland, June VanSchoick, Laurie Gimble, Lois Williams, Alta Byrnie Barlow, Lucille Weeks, Rachel Weeks, Donna Keener, Hermiston; Betty Park, Marie Lane, Betty Gregory, Coralle Mansker, Stanfield; Joan Byrnes, Violet Huxall, Fern Bray, Sara Wurster, Betty Huxall, Umatilla.

Second year: Mary Helene Piersol, Peggy Sommerer, Minnie Belle Riley, Maxine Thompson, Anne Peterson, Muriel Kingsley, Hermiston; Zelma Sale, Grace Krause, Wilma Mansker, Charlene Rowland, Charlotte Cornelle, Vovyn L. Gonsteth, Laura Stephens, Zelma and Ina Sutton, Linnis Foster, Stanfield; Kathleen Hower, Pauline Roach, Umatilla.

Third year: Ruth McCulley, Irene Borthwick, Hermiston; Jean McKenzie, Umatilla; Nellie Moore, Marie Tenney, Stanfield.

Fourth year: Dorothy Knox, Mary Sommerer, Kay Keener, Susan Knox, Hermiston; Agnes Kennedy, Umatilla; Clemma Barber, Ruth Jordan, Stanfield.

Fifth year: Mary Margaret Kennedy, Catherine Kennedy, Grace Benschel, Veta Moran, Umatilla; Lorna Gabriel, Lila Sealf, Stanfield.

Ann Sommerer, sixth year; Joyce McCulley, seventh year; Esther McMullen, Nina Rae McCulley, all of Hermiston, ninth year.

The livestock division awards were as follows:

First year: Creston Buzzard, Bob Eaton, Alfred Buell, Gilbert Gettman, Clayton Buell, Glenn Wilcox, Lewis Wilson, Dulcinea Panages, Theodora Panages, Hermiston; Gordon Shown, Umatilla; Bruce Lindsey, Wallace Ebsen, Herman Ebsen, Lexington; Vovyn Gonsteth, Stanfield; Frances Madison, Dorothy Madison, Echo.

Second year: James Benschel, James Rugg, Umatilla; Bernard Corpe, Dick Kingsley, Peggy Sommerer, Wilbur Hunt, Hermiston; Donna Saylor, Echo; Owen Anson, Alma Anson, Sally Anson, Wayne Barber, Newell Anson, Charlene Rowland, Stanfield.

Third year: Chas. Kik, Frank Benschel, Joe Cooney, Umatilla; Eldon Saylor, Echo; Harry Lewis, John McMullen, Bill Corpe, Lois Hunt and Irene Hunt, Hermiston.

Fourth year: Kenneth Benschel, Hermiston; Robert Benschel, Umatilla; Kay Keener, Mary Sommerer, Hermiston.

Fifth year: Marion Ott, Harold Neill, Ralph Neill, Hermiston; Grace Benschel, Eugene Rugg, Richard Rugg, Umatilla; James Barber, Stanfield.

Sixth year: Henry Sommerer, Bob Jackson, Hermiston.

Seventh year: Marie, Rodman and George Hartley, Hermiston.

Eighth year: Leo Rueber, Stanfield; Russell Hartley, Hermiston.

CLOVER PROVES GOOD IN ALKALI

What to plant on strong alkali land in the way of forage plants has long been a problem for farmers, but the Oregon State college experiment station is fostering a comparatively new plant, strawberry clover, which has shown a remarkable adaptation for alkali soil.

This perennial clover is new to the northwest and as yet is grown commercially only in the Yakima section of Washington. It is a native of Australia, where it is widely used in salty, wet ground near the seacoast.

"It has been proven suitable to very strong alkali lands," reports G. R. Hyslop, head of the division of plant industry at Oregon State college. "It grows like ladino clover, and is fully as palatable, and is apparently hardier."

Experiments Prove Worth.

The first strawberry clover seen in Oregon was near Seio by N. A. Bleeckley. The experiment station became interested in the find, and since then has seeded plots on five branch stations, namely, Astoria, Union, Hermiston, Burns and Klamath Falls. Three demonstration plots have been set out, one each in Lake, Malheur and Baker counties. All of these plantings have done well. The strawberry clover has outstripped its competitors, especially on the alkaline soils.

In an experiment in California, strawberry clover was planted in a mixture with other crops and was being rapidly crowded out until salt was scattered on the ground. Then the tide turned and the new clover crowded out the other plants in the mixture.

Alkali No Hindrance.

A. F. Gross, assistant agronomist and head of the Klamath Falls station, has a successful stand of strawberry clover growing on soil which has a p. h. of 9.4 or otherwise practically worthless for any other crop. In California it is reported that strawberry clover has done well on ground containing 3.7 per cent alkali salts in the top five inches of the soil. Normally crops do poorly in soil containing as high as 1/2 per cent alkali.

As to the practicability of raising strawberry clover for seed, R. G. Larson in Malheur county this year harvested 308 pounds of clean seed from a one-third acre plot. The seedling was given some special care. Because of scarcity, strawberry clover seed sells for close to \$1.50 a pound.

Name Origin Given.

The name strawberry clover was given to the crop because of its striking resemblance to the common garden strawberry. As the seed head approaches maturity it closely resembles a green strawberry. Creeping runners in strawberry fashion establish new plants wherever the nodes contact the ground in addition to the very abundant seed supply formed in the heads. One thousand seeds per plant is not at all uncommon.

Humboldt county dairymen on the coast at Eureka, Cal., are the oldest users of strawberry clover on the Pacific coast, and they have had remarkable success with it as a wet-land grass.

Rapid Spread Noted.

In recent tests at Colorado State college it was proved that strawberry clover has four times the resistance to alkali that sweet clover has. It is not altogether a wet-land grass, for tests have proved it adapted to inland dry alkaline areas, such as found in eastern Oregon.

With the great number of seeds per plant the new clover spreads rapidly. A farmer near Merrill observed volunteer strawberry clover on his land, and by gathering a quantity of the heads and broadcasting them he intends to cut and thresh 20 acres this fall.

More seed will be produced than ever before this year, and it is likely that a seed supply will be available for a limited number of growers.—The Oregonian.

AG CONSERVATION MEETINGS WILL ELECT COMMITTEES

There will be held in each of the twelve communities comprising the Umatilla County Agricultural Conservation association a meeting for the purpose of electing for 1939 three committeemen, first and second alternate committeemen, also a delegate and alternate delegate to the county convention which will elect the county committee for 1939, on December 7th, at 1:00.

The Hermiston meeting will be

held at 1:00 o'clock Wednesday afternoon of next week in the basement of the new Union church.

Those eligible to vote in these elections are owners or operators of farms covered by work sheets under the Agricultural Conservation Program, those who have an interest in a ranching unit which is signed up under the Range Improvement Program, or who have an interest in a farm or ranch and who states in writing on a form prescribed by the Agricultural Adjustment administration his intention to participate or cooperate in any such program.

Those eligible to hold office must have qualified during the current year for a payment under the program in the county.

A person elected as community committeeman or alternate may also be elected delegate to the county convention.

MRS. MAUD MORSE RESIGNS AT O. S. C.

Oregon State College—Mrs. Maud Mueller Morse, extension specialist in child development and parent education, who has become known throughout the state for her work in developing parent education clubs for both men and women, has resigned from her position. She will marry Senator Dean Walker of Independence some time during the next month.

Mrs. Morse holds both bachelor's and master's degrees from Oregon State college. Her work as an extension specialist during the past three years has earned the high praise of Mrs. Azalea Sager, state leader of home economics extension, and of F. L. Ballard, vice-director of extension at OSC.

Believing that fathers as well as mothers have a vital interest in the problems of child rearing, Mrs. Morse prepared her programs with a view to bringing out this interest, and as a result the attendance of men at such meetings jumped from 9 to 45 per cent under her leadership. Her work with the new series of study clubs organized this fall will be carried on until her successor is appointed by Mrs. Sara Prentiss, head of the household administration department; Dr. O. R. Chambers, professor of psychology, and Mrs. Buena Maris, instructor in family relationships.

FARM ECONOMISTS FORESEE BETTER INCOME FOR 1939

Oregon farm income for 1939, as that of the country as a whole, may be moderately larger than in 1938 if present trends continue as analyzed by agricultural economists. This is the word brought back from Washington D. C., by L. R. Breithaupt, extension agricultural economist at Oregon State college, who represented the extension service at the annual agricultural outlook conference.

A brief summary of the agricultural outlook for Oregon is contained in the current issue of "Agricultural Situation and Outlook" just published and distributed to various extension offices throughout the state. More detailed discussion of the outlook as applied to individual enterprises will be included in later issues throughout the year as usual. The more favorable outlook for farm income in Oregon is dependent upon maintenance of normal gross volume farm production and a strengthening of consumer purchasing power as is predicted by the bureau of agricultural economics. Farm production expenses are expected to average about the same as in 1938.

The outlook is relatively more favorable for farm families producing crops that reach the consumer without long storage, except where such quickly used crops are increased greatly in volume or where they have experienced prices in 1938 raised by government action.

While in Washington Professor Breithaupt acted for the college in proceedings before the Federal Communications commission on behalf of the state owned radio station, KOAC.

He reports that an application has been filed by the college, through counsel, asking the commission to grant a rehearing of the case of the Salt River Valley Broadcasting company which is seeking to use the same wavelength used by KOAC.

It is believed that such use would result in serious impairment of KOAC's service, so the college is asking an opportunity to present evidence before the commission acts on the examiner's report which was favorable to the request of the Arizona station, KOY.

NO CHANCE FOR ARGUMENT!

Uncle Si Henpeck was about half right when he told his nephew: "You boys of today want too much for your services; do you know what I was getting when I married your aunt?" "No, and I'll bet you didn't either," said the nephew. You're sure to know what you're getting when you buy a Used Car of us, for if it isn't right, we're right here to make it right, and we don't mean maybe.
