The Pep club will sponsor a party Friday, March 10, to which players on teams with which the locals competed the past season, will be honor guests.

This week will be the last for cafeteria service at the school, Miss Gladys Elwood has served as cook during the past season.

The curtains have been hung on the stage in the junior high school auditorium. They were purchased with funds from the last operetta and made by the home economics sewing class.

### ROMANCE OF SUEZ IS STIRRING FILM

Experience has proved that it is the visionary who plans history and the man of action who makes it. Rarely are these two attributes combined in one man, but when they are—you have someone to be reckoned with in the march of civilization.

Such a man was Ferdinand de Lesseps, the heroic Frenchman who dreamed of joining the Mediterranean with the Red Sea that ships might sail the desert in a short route to the East—the selfsame route sought by Columbus, Magellan, and heroes before them.

Driven by the love of two women, de Lesseps fought terrifying odds to tear two continents asunder and build the canal that has become the jugular vein of the world.

"Suez" is truly a great picture. In spectacle, emotional experience and sheer entertainment it is unsurpassed.

Tyrone Power gives thrilling realism to the central character, with Loretta Young and Annabella stirringly appealing in the feminine leads.

"Suez" starts Sunday at the Oasis Theatre.

### U. P. MERCHANDISE SERVICE MARCH 1

A new fast overnight merchandise train will be put into regular service March 1 by the Union Pacific, operating from Portland to Arlington, Pendleton, La Grande and Baker, and into Idaho, providing early morning delivery of less than carload or package merchandise throughout eastern Oregon and to points as far east as Boise, Idaho.

Notice of inauguration of this service, with store-door pick up of merchandise at Portland and store-door delivery at destinations, was received here today from F. W. Robinson, vice president in charge of traffic.

The Union Pacific's new merchandise train will leave Portland at 6:45 p.m., permitting late afternoon loading, and will arrive at Arlington 10:40 p.m.; Pendleton 12:30 a.m.; La Grande 2:55 a.m.; Baker 4:25 a.m.; Weiser 7:20 a.m.; Payette 7:50 a.m.; Ontario 8:05 a.m.; Caldwell 8:55 a.m.; Nampa 9:25 a.m.; and Boise at 10:20 a.m.

It will also accomplish early morning delivery of merchandise at Walla Walla where cars will arrive at 5:00 a.m. and Spokane at 7:00 a.m.

Merchandise from points north and south of Portland will be given the benefit of this new service, it was pointed out by local Union Pacific officers. Second morning delivery of goods shipped from Portland will be effected, they said, at points throughout eastern Idaho.

The new eastbound pick up and delivery train service from Portland is to be coordinated with similar new merchandise trains which will operate westbound from Salt Lake City via Ogden and Pocatello.

### VARIED OUTLOOK FOR FIELD CROPS SHOWN IN REPORT

No rift in the cloudy wheat price outlook for 1939-40 is seen in an analysis of the domestic and world wheat situation contained in the current Agricultural Situation and Outlook circular just issued by the extension service at Oregon State college. The current circular is the annual issue which deals with market outlooks for field crops and vegetables.

High continued demand for forage seed is foreseen, although somewhat lower prices may result from the relatively large 1938 production, the report states. The circular also deals with the outlook for seed crops, truck crops, hops, beans, and flax seed. The circular mentions an indicated reduction of about 8 per cent in the 1939 potato acreage, but says more detailed information on this crop will be published in the March circular.

With respect to wheat, the circular points out that the world pro-

duced a near record wheat crop in 1938 which sold for low prices, and that little improvement is expected in the United States wheat situation during the 1939-40 marketing season. Unless the world wheat acreage is adjusted downward, supplies will probably continue to be burdensome and any improvement in world prices will have to depend upon improvement in economic conditions. Very little information is yet available on the probable acreage of spring wheat in this country.

Turning to the general farm price situation, the circular reveals that in the country as a whole the general level of prices received by farmers as of January 15 stood at 95 per cent the pre-war average, while the government index of prices paid by farmers for commodities stood at 120 per cent, giving a farm purchasing power of 78 per cent of the pre-war level. This is 2 points lower than in the month previous, and 3 points under January, 1938. In Oregon the mid-January index was 65 per cent of the 1926-1930 average, or 2 points under the month previous and 5 points below January, 1938. Copies of the circular may be had at any county extension office.
