11 CENTS PARITY PAYMENT SET ON WHEAT FOR 1939

Parity payments made in 1939 to wheat growers who keep planting within their allotments will be 11 cents per bushel, according to word received by the state AAA office at Corvallis.

Payments will be based on the normal yield of each farmer's allotted acreage. Present estimates are that wheat farmers of the nation will receive $64,113,000 in price adjustment payments during 1939.

Besides these parity payments, farmers who cooperate in the AAA farm program this year, and stay within their acreage allotments, will receive agricultural conservation payments at rates previously announced.

Counting both price adjustment payments and conservation payments, wheat farmers cooperating in the 1939 program will be able to earn up to 28 cents a bushel in compliance payments, it was said.

Parity payments are made under the Price Adjustment act of 1938, which allocates $212,000,000 to be paid producers of wheat, cotton, corn, rice and tobacco—the nation's five basic crops—if their average prices fell below 75 per cent of parity during the year.

Meanwhile, the Oregon state office of the AAA continued this week to handle the huge flow of compliance forms from the 1938 conservation program, which will bring approximately 30,000 applicants as estimated total of three million dollars in payments. Checks are being sent regularly to county AAA offices, for distribution to farmers.

The trend toward increased cooperation with the national farm program continued during 1938, a comparison with the two previous years shows. During 1936, Oregon had 14,496 cooperators who received $1,817,235 in conservation payments. During 1937, this increased to 23,618 cooperators who earned $2,183,203 in payments.

Although Oregon's compliance earnings showed this district increase in 1937, some of the northwest states, including Washington and Idaho, showed a decrease.—

A steel type home was erected on Treasure Island for the California World's Fair in three days, by the Soule Steel Co., exhibitors.

PROPOSED ORDINANCE OF THE CITY OF HERMISTON

An ordinance granting to the Hermiston Light & Power company, its successors and assigns, the right, privilege and franchise for erecting, maintaining and operating an Electric Lighting and Power System, and erecting and maintaining poles and wires in, upon, along and over the alleys, streets, public grounds and thoroughfares, for the purpose of supplying current for electric light and power to the City of Hermiston and its inhabitants, with the right to charge and receive payment therefor, at rates approved and on file with the Public Utilities Commissioner of the State of Oregon, and providing for forfeiture of franchise for failure to comply with the terms of the ordinance and fixing the date for the expiration of this franchise.

The City of Hermiston does ordain as follows:

Section 1. That there be and is hereby granted to said Hermiston Light & Power company, its successors and assigns, the right, privilege and franchise to erect, maintain and operate within the City of Hermiston, Oregon, an electric lighting and power system, and the right, privilege and franchise is hereby given to said company, its successors and assigns, to locate, place, build and maintain in and along the streets, alleys, lanes, public grounds and thoroughfares within the City of Hermiston, Oregon, poles and the necessary braces and stays, with the necessary cross arms, and thereon to fasten the electric wires, and to stretch said electric wires over, along, through and across said streets, alleys, lanes, public grounds and thoroughfares, and to use the same for the purpose of transmitting electric current for lighting and power purposes, and to have and to hold such franchise for the purposes and uses herein enumerated, or incident thereto, and upon the terms and conditions herein set forth, for the period of twenty-five years from the date of the adoption of this ordinance by the Common Council of the City of Hermiston, and the maximum charge for supplying electric current to the inhabitants of Hermiston, shall be the rates fixed by the Public Utilities Commission of Oregon, or other state rate fixing body.

Section 2. That the Hermiston Light & Power company, its successors, and assigns be, and the privilege is hereby granted to it, its successors and assigns, to furnish said electric lights and power and to transmit the same over, along and through the said wires, and to maintain said poles and wires upon, in, along and over and through said streets, alleys, lanes, public grounds and thoroughfares of said city, and for such purpose to dig up such grounds, alleys, streets and ways of said city whenever it may find it necessary so to do, in order to erect poles, staffs or towers, or lay, string or stretch, or insulate wires, or place or set candles, pins, lamps or other electric apparatus at such place or places within said city as it may find necessary or expedient in order to successfully operate and maintain an electric light and power system, and to adapt the same to the uses to which it may desire the same to be put, subject always to the limitations and conditions herein provided and set forth.

Section 3. That the Hermiston Light & Power company, its successors and assigns, during the life of this franchise, shall so erect the poles, staffs and towers and lay, stretch, string and insulate the wires, and set and place the pins, candles and lamps and other electrical apparatus and maintain the same so as to interfere as little as possible with the traffic and convenience of the citizens or inhabitants of the city, and shall safely place and insulate all wires used in said electric light system, whenever used within the limits of the city, and they shall so be kept and maintained; and they shall not disturb the public grounds, streets, alleys and ways of the city more than is necessary for the proper and convenient erection, maintenance and operation of such plant or system, and shall promptly repair all streets, alleys, ways and grounds in any way disturbed, and put the same in as good condition as the same were in before being used for such purposes. And all main lines of poles shall be erected in the alley ways, and in so far as practicable, the distributing system shall be confined to the alleys, and poles shall be erected upon the main streets of the city only in cases where necessary to provide street lamps for the city, and then only upon such streets and places as the Common Council shall direct.

Section 4. All electric wires attached to poles shall be carefully secured to modern insulators and fastened to said poles so as not to come in contact with any object through which "grounds" or "short circuits" can be formed and shall be so attached and stretched as not to interfere with or obstruct the free use of such streets, alleys, lanes, public grounds or thoroughfares and main distributing lines at a distance of not less than 25 feet and secondary distributing lines at a distance of not less than 22 feet from the grade of the street, alley, lane, public ground or thoroughfare upon which the said poles are erected, and all poles shall be placed in the ground to a depth to secure safety, and no poles shall be erected which are less than six inches in diameter at the top end, and such poles and wires stretched thereon shall be erected and at all times maintained in a safe and careful manner, and shall in no manner interfere with the natural growth of shade trees along the streets of said city, nor prevent the planting and growing of shade trees upon such streets, except that the grantee, its successors and assigns shall have the right to prune the tops of such shade trees when the limbs thereof come in contact with the wires, but shall do no unnecessary damage to such trees, and shall prune in such manner as the Common Council may from time to time direct.

Section 5. That when it shall become necessary, in the erection or maintenance of said lighting system, to take up or remove any portion of a street or sidewalk, or to dig up the ground in a street or alley, or disturb any pavement which shall be placed thereon, then the said grantee, its successors and assigns, shall without delay, replace such street, paving or sidewalk, in as good condition as it was before, and whenever it shall be necessary to place a pole on one of the public streets, it shall be placed within the sidewalk area next to the curb; and provided further, that whenever any person, or persons, have obtained permission to use any of the streets of the city for the purpose of removing any building, the said grantee, its successors and assigns, upon 48 hours notice in writing from such person or persons, shall raise or remove any such wires, which may obstruct the removal of said building, so as to allow the free and unobstructed passage of same.

Section 6. The privileges, rights and franchises herein set forth to the said grantee, its successors and assigns, shall continue for the term of 25 years, and no longer, the term commencing at the date of the approval and acceptance of this ordinance, subject always to the terms and conditions herein set forth.

Section 7. The said grantee, its successors and assigns, shall, during the life of this franchise, furnish a continuous service of electric current during 24 hours each day, except when unable to do so by an unavoidable casualty or act of God, and shall at all times use due and reasonable diligence in maintaining a continuous current of electricity for lighting purposes to the City of Hermiston and its inhabitants, and shall hold the city harmless from any and all damage by reason of the erection of poles, buildings, or conduits, stringing of wires and operating under this franchise.

Section 8. Should the said grantee, its successors and assigns, fail or refuse to file its written acceptance of this franchise within thirty days after the final passage and approval of this ordinance, then this ordinance shall be null and void.

Section 9. Any non-compliance on the part of the grantee, its successors and assigns, with any of the provisions of this ordinance shall operate to revoke the franchise hereby granted, and at the option of the city council by resolution, it shall be the duty of the city council upon any such failure or refusal, to at once pass a resolution declaring this franchise terminated and cancelled and that thereupon this franchise and all rights and privileges of the grantee and its successors and assigns therein under this ordinance shall be forfeited and this ordinance shall be null and void.

Section 10. This ordinance shall be in force and effect thirty days after its passage by the Common Council and approval by the Mayor.

The foregoing is a proposed ordinance being considered by the City Council of the City of Hermiston, Oregon. Anyone interested may discuss the same with the city council at any regular meeting up to and including the meeting of April 19, 1939.

Recorder of the City of Hermiston, Oregon.
