GARDEN CLUB CHATS

All those who have an interest in improving the grounds surrounding their homes missed a very fine talk if they didn't attend the meeting at the Legion hall last Friday to hear Mrs. Eunice Brandt. Besides the local people who were there, Stanfield and Echo were well represented. Mrs. Brandt told the "what, why and where" of planting shrubbery, and illustrated her talk with black-board sketches. Later Mrs. Brandt and those interested in the information she gave, visited the following homes: S. L. Carson, John Hamman and J. H. Reid, in Hermiston; H. B. Hull and A. E. McFarland, Umatilla; and W. T. Reeves and N. D. Bard in Stanfield.

At the last meeting the table decoration was provided by Mrs. Frank Bilderback. This is a feature of each meeting, and it is asked that each person contributing to this part of the program be prepared to tell something of the growth and culture of the plant or bouquet displayed.

All clippings that may be of interest to club members are requested for meetings and discussion. These will be made into a scrapbook for reference.

At the last meeting it was voted to help the Commercial club in selling tickets for the forthcoming performance by the Pendleton Male chorus, to be presented in the local high school gymnasium on March 31. Hermiston's share of the proceeds will go toward providing much needed kitchen facilities at the Community Park hall, and with this objective everyone should get behind the project. The chorus is under the direction of Ted Roy, nationally known singer. The soloist is to be Frances Robertson, and the Pendleton Round-Up quartette will sing. The chorus has been an outstanding success wherever it has appeared, and a capacity house is anticipated. A committee appointed by Mrs. Julius Gimble, chairman, is making plans for the ticket sale to cover a wide territory.

If you were not at the last meeting to receive your program booklet, copies may be obtained from Mrs. W. L. Hamm. They are very neat and attractive, giving dates and speakers for future meetings this year, as well as dates of shows to be held, for your reference in your planting plans.

Mrs. H. L. Payne will give a talk at the next meeting, March 20, on "Spring Care of the Garden."

It is possible here in the West to have iris in bloom throughout the blooming season for flowers. May is the most spectacular time, of course. Bulbous varieties bloom first in the season, followed by the tall bearded and then the Japanese. Plan to visit the commercial iris gardens in your locality to see your favorites growing in the field.—Howard Weed, in Sunset.

Note: One of the most famous growers in the United States has established iris gardens in Grandview, Wn. This department will endeavor to find from this nursery just when the period of blooms there will present the greatest show for those wishing to visit.
