

Do you know?

Every 40 seconds of every day, somebody buys a new CHEVROLET.

Do you know?

That CHEVROLET is the biggest selling car for seven out of the last eight years.

Do you know?

No other car combines all these famous features—

- Exclusive Vacuum Gearshift
- New Aero Stream Styling, New Bodies by Fisher
- New Longer Riding Base
- 85-Horsepower Valve in Head Six
- Perfected Hydraulic Brakes
- New "Observation Car" Visibility, with Improved Shockproof Steering
- ◆ Available on Master DeLuxe Models Only
- Tiptoe Matic Clutch

Hermiston Motor Co.

H. OAKES, Owner and Manager

Drive Your Old Car In & Drive Out a New Chevrolet

COUNTY NURSES REPORT ON WORK

The month of April was an unusually busy one for the staff nurses as tuberculosis testing was done throughout the county. Hermiston was included in the list of cities where this work was accomplished.

Several very instructive talks were given about the county during the month. Several important meetings were held to examine children and suggest remedies.

Miss Pauline Keller and Miss Rosanna Winter returned to Umatilla county to finish the audiometer testing. At Umatilla, Stanfield and Hermiston 383 group tests were done, 75 retests and 25 individual tests. Out of this number 15 children were found to have defective hearing. Mrs. Whipple assisted with these tests.

JACKSON ELECTED VICE PRESIDENT

Bill Jackson, son of Mr. and Mrs. C. M. Jackson of near Hermiston, was elected to the vice presidency at Pacific university at Forest Grove at the annual elections held last week. He will be a junior next year and is making quite a name for himself at his school.

Bill has been pledged to Blue Key, national honorary fraternity, and Tau Kappa Alpha, national forensics society.

Bill is a graduate of Hermiston Union high and is continuing the prestige being set by Hermiston graduates in winning high honors at the higher institutions of learning.

CLEAN UP AT COLUMBIA PARK

Wednesday, May 24, has been set as another clean up day at Columbia park. At the previous clean up quite a lot was accomplished but there is still much to do before the summer picnics begin.

A pot luck dinner will be served at noon.

At the last meeting of the Farm Bureau Auxiliary Mrs. Rosine Stewart gave a very interesting reading on "Pioneer Mothers."

SIGNERS SOUGHT FOR RANGE PROGRAM

Umatilla county farmers were reminded today by A. R. Coppock, chairman of the Umatilla County Agricultural Conservation committee, that June 1 is the final date for ranchers to file requests for prior approval of range-building practices offered under the 1939 range conservation program.

He said that approximately 80 ranchers in this county will take part in the 1939 range program, carrying out practices designed to promote conservation and continue good range management. Among popular practices in this county are deferred grazing, spring and reservoir development, drilling of wells and reseeding.

All range-building practices must be approved by the county agricultural conservation committee. Requests for prior approval of practices should be made to the county agent or secretary of the county conservation association.

Approximately 1400 Oregon ranchers, representing around 6,000,000 acres of range land, are taking part in this year's range program, according to word received by the county agent.

5 Points to remember about Gasco Briquets

- 1 A 100% petroleum fuel—ideal for furnace, fireplace or stove. (No special equipment needed)
- 2 Highest heat content of any solid fuel.
- 3 No banking or shaking. Hold fire all day or night.
- 4 No ashes or clinkers to carry out.
- 5 One ton of Gasco Briquets is equal to two cords of the best grade first-growth cord wood. Gasco Briquets cost less per season than the best grade bituminous coal.

Inland Cooperative

GARDEN CLUB CHATS

Because of the display of Spurias in the recent show, the following by Howard Weed the iris expert, may be of interest: "In shape, the flowers of this species are identical with the Dutch and Spanish iris, but the plants have the added advantage of having roots instead of bulbs. They grow into large clumps with sword-like foliage and flower stalks four to six feet high. They do well in any soil, but will grow in a wet soil in which the bearded iris cannot exist. The Spurias, like the Siberian, should be transplanted in the fall, when the dry season is over."

Columbines prefer the morning sun but will thrive well in either shade or full sun. Columbine seeds should be started in July and the plants from these will bloom the following season. Along about October put some barnyard fertilizer in the columbine beds. Either at the same time or early in the spring, dig in a trowelful of bonemeal around each plant. Keep the beds well cultivated and give them plenty of water in

flowering time. Do not water snapdragons in the late afternoon or evening. This practice encourages the rust spores.

The last few hot days have brought out the aphids. New shoots on spirea and other shrubs are infested with them. Spray thoroughly.

Perennial phlox will thrive in partial shade, and this will add endurance to their colors, but see that these locations have good air circulation, else mildew will trouble the foliage.

A fine demonstration of the value of the birds in the garden was given during the last few days, when the moth of the codling worm descended upon us in force. All kinds of birds flew in and out of trees, and did their best to reduce the pest. The wonder is that some of the feathered bug-catchers could fly at all by the end of the day, so bountiful had been the feast.

This is the last month to plant most summer blooming bulbs and tubers.

Keep chrysanthemums and cosmos pinched back, for later profuse blooming.

Next meeting—June 5th, when we will get a report of the doings at the state convention of garden clubs, from the delegates who are now in attendance at Forest Grove.

Would you show the passer-by that the "desert will bloom like the rose?" The editor of the Herald has made the suggestion that flowers are welcome in his window, as propaganda to the tourist to show what can be done here, as an advertisement for the activities of the Garden club, and perhaps just simply to make us all happier for the sharing of the beauties of our gardens. It seems like a good idea. The window faces north, is easily seen by the tourist going through town and a fresh bouquet in a pretty container always in the window, with no thought of commercialism (except as above stated, a slight hint of propaganda) is sure to be enjoyed.

MOTHER'S DAY TEA ENJOYED

Mrs. Walter Hamm, program chairman, presented the following numbers at the Legion Auxiliary tea May 11. The high school girls' sextet sang two numbers accompanied by Miss Gwendolyn Ross. Bill Penney presented two violin solos, accompanied by Phyllis Sires. Kay Logan gave, "When Ma Upped Her Hair." James Jackson favored with two solos, accompanied by Phyllis Sires. One of his numbers was entitled "Mother."

"Little Old Lady" and "Minuet In G" were violin solos presented by Virgil Logan, accompanied by Bobby Jackson. Mrs. James Todd's Junior girls sang, "God Bless America." The entire program was well presented. Approximately 50 guests were present.

Mrs. David Middlesdorf had charge of the tea table which was lovely with lace cloth and spring flowers. Mrs. Rene Waterman and Mother Kelly poured.

Each mother was introduced and presented with a lovely corsage by her daughter for the day. Alice Stone made the lovely corsages.

The Juniors purchased a beautiful potted plant to be presented to our Gold Star Mother, Mrs. Tucker, as a Mother's Day remembrance.

The Juniors enjoyed a wiener roast near the Umatilla river last week. Mrs. Todd had charge of the young ladies.

Auxiliary members will be busy at their next meeting waxing popples for Memorial Day and nominating officers. Every member is asked to be present on May 25.

TOWNSEND FLASHES
All members are urged to be present at the Townsend meeting Friday, May 26 to hear important reports from headquarters about our bill.

The Townsend Auxiliary ladies have a velvet slumbering quilt on display at Burnham store, which will be sold. The returns from this quilt will help pay the delegate's way to our Townsend National Convention at Indianapolis. There will be a program put on by Mrs. Jess Prindle and a jitney lunch served by the Auxiliary club.
