

# FARM CO-OPERATIVE DIVISION

A MESSAGE TO EVERY MEMBER.

## R.E.A. HIGHLIGHTS

BY R. L. WOOLLEY

The response to the survey cards is very satisfactory. In fact, we have the majority of them in now. Just as soon as we have them all in we will analyze them and then we will be able to tell you what we have found out about ourselves. Perhaps some of the things will be very interesting and then some of the other things will need our attention. The thing to notice with pride at this time, however, is that we are cooperating, working together for the common benefit of each and all of us.

We have additional notes of interest regarding the consuming of energy for the month of January. Last week I mentioned some of the larger consumers, but on thinking it over later I thought perhaps I had overlooked some worthy of note and so made a closer check. This is what I learned: J. H. Reid, Mrs. A. E. McFarland, Elmer Sullivan, F. W. Magnussen, H. J. Bean, Sloan Thompson, E. R. Buzzard, Antone Vey and Otis Hampton were the highest consumers in the order mentioned. These members are also all in the farm-residential group.

In the commercial and lighting group we have the Irrigon schools, Boardman schools, Irrigon Air Beacon, Oliver Coryell and F. P. Leicht as high consumers in the order mentioned.

One other thing desirable which each member can do is to indicate to the office either by postal card or personal word at the office whether or not you read the column in the Hermiston Herald each week. The board at its next meeting will consider continuing it. So, if you have your word in by that time, it will help them in their decision. Please do not overlook this item. Thank you for your interest and work with us.

Asst. Secretary.

## CROP LOANS NOW AVAILABLE HERE

Farmers in the Hermiston area are asked to come to the office of M. E. Knickerbocker, assistant county agent, on Monday, February 19, beginning at 10:00 o'clock if interested in making crop and feed loans for 1940. The field supervisor will be here at that time.

Emergency crop and feed loans for 1940 are now available to farmers in Umatilla county, and applications for these loans are now being received at county agent offices in Milton, Pendleton and Hermiston.

This early opening of the loan program in Umatilla county is part of a plan recently announced by the Farm Credit Administration whereby emergency crop and feed loans are being made available immediately in all areas where farming conditions are seriously affected this year by drought or flood.

These loans will be made, as in the past, only to farmers whose cash requirements are small and who cannot obtain a loan from any other source, including production credit associations, banks, or other private concerns or individuals.

As in former years, the money loaned will be limited to the applicant's necessary cash needs in preparing and cultivating his 1940 crops or in purchasing or producing feed for his livestock.

Borrowers who obtain loans for the production of cash crops are required to give as security a first lien on the crop financed or, in the case of loans for the purchase or production of feed for livestock, a first lien on the livestock to be fed.

### METHODIST CHURCH

Stearns Cushing, Jr., Pastor

"Forward Together in Christ" will be the theme around which the Sunday morning service for February 11 will center. On the annual observance of Race Relation Sunday, we need to recall the great character and personality of Lincoln. In keeping with the spirit of this day there will be a special evening service which will feature a transcribed program entitled "The Negro Preacher." This special recording is prepared and sent out by the Board of Home Missions for radio programs known as Heralds of Destiny. The service begins at 8 p. m.

### SEVENTH DAY ADVENTIST

The Bible, the infallible book, can alone foretell exactly for centuries, even before events transpire, while historians come along and when the events have passed, fall in the minor details of such prediction. Such is the example brought to us in the 9th chapter of Daniel which spans with exactness a period of 2300 years.

This prophecy shall be explained in the illustrated lecture which Ivan Schaber presents in the Hermiston Seventh Day Adventist church Sunday evening at 7:45. To all is extended a hearty welcome.

## ADVERTISING OF DAIRY PRODUCTS TO BE AIRED

Should the dairy industry do something about advertising and promoting the sale of dairy products, or should it let competitive products do the advertising and depend on selling its own on a low price basis?

This vital question facing the Oregon dairy industry is to be put before a joint session of the Oregon Dairy Manufacturers' association and the Oregon Dairymen's association, when the two meet together Thursday, February 22, on the campus at Oregon State college.

The manufacturers are holding their session Wednesday and Thursday of that week, while the producers will meet Thursday and Friday. These two conventions, together with the annual short course put on by the dairy department at the college, will make this the most comprehensive dairy industries week so far arranged in this state.

Bringing the national viewpoint on the matter of dairy advertising will be Milton Hult, president of the National Dairy council, who will be a featured speaker. President Hult is coming from Chicago to the west coast for addresses in California and Washington, as well as here. Another feature of the producers' program will be a thorough discussion of the present dairy herd sire situation in Oregon, and how it can be improved, says Roger W. Morse, extension dairyman and secretary of the association.

All persons interested in the dairy industry are invited to attend any part of the week's program, regardless of whether they are members of the associations concerned.

Large bodies of seemingly good ice within their view, tempted the high school youngsters from their duties last Thursday and they hied to their several homes for skates and other regalia to enjoy the stolen hours. However after a few received a wet reception when the ice gave away with them, their spirits were subdued. There was nothing to do but make the best of a bad situation. Mr. Jones dismissed the entire high school for the day, leaving them to choose their several forms of entertainment, knowing that at the opening of another day the students would be in a more sober frame of mind and take up their duties where they had left off previously.
