See The New, Improved JOHN DEERE Model "L" TRACTOR It's Built for REAL ECONOMY

NO matter how small your crop acreage—you will want to come in and get full information on this new John Deere tractor built for market growers and small-acreage farmers. Its engine is of simple, 2-cylinder design. Its operating costs are amazingly low. Many owners use only 5 or 6 gallons of fuel for a full 10-hour day's work.

On small acreages, it is the only power unit needed—it does the plowing, seed bed preparing, planting, cultivating, hauling and other jobs—completely replacing horses. Best of all, the price of the tractor and equipment is within reach of every pocketbook.

Everyone should see this new John Deere—the only way to really appreciate its easy handling, its compact design, and its flexibility, is to come in—get the feel of the wheel.
