HERMISTON BAPTIST CHURCH

Grayren D. Loree, Pastor
Our Sunday services begin with Sunday School at 10 o'clock, followed by morning worship at 11. Our theme will be "The Bible as a Plumbline." Just as a wall cannot be accurately judged to be true by the natural eye, so our theories cannot be accurately judged except by the plumb line of God's Word.

B.Y.P.U. meets at 7 o'clock and evening worship at 8. The fifth chapter of Daniel, containing the story of Belshazzar's feast will be discussed. Don't forget prayer meeting Wednesday at 7:30.

HERMISTON UNION CHURCH

C. Warner, Pastor
The latch string you will find hanging out on the front door of any one of our churches next Sunday morning and evening. You will find a welcome in any one of them. Our sermon topic for the morning worship service will be "The Wisdom and Purity of Christ," and for the evening service, "Peter Delivered From Prison."

METHODIST CHURCH

Stearns Cushing Jr., Pastor
"The Gospel of Gladness" will be the subject theme for the Sunday morning worship services at the Methodist church. Many are our reasons for gladness. We have a good God and know it. We should rejoice because our God has given us a pleasant world to live in. Rejoice and be exceedingly glad. Let the church help you meet life. Our services at the usual hours. The Epworth League and meditation hour in the evening. You will find a warm and cordial welcome.

Another Carload of New Ford Tractors

With Ferguson System of Hydraulic Control

The Ford-Ferguson tractor is an innovation in a wheel tractor that is mystifying, uncanny and magic in its operation. Plow full speed into a rock, root or any obstacle that would damage any other implement — with the NEW FORD TRACTOR you automatically stop, the rear wheels raise up and spin. This is brought about by the built in Ford-Ferguson hydraulic system of control.

There is nothing you can do with your horses that you can not do with this New Ford tractor—and do it better, cheaper, quicker and with less effort on your part. Make no mistake about it! The Ford tractor will work on your farm to a degree of perfection you won't believe until you've tried it.

LET US PROVE THIS TRACTOR UNDER YOUR CONDITIONS ON YOUR LAND.
