 H-86 Two-Way Plow for Farmall-H

Here's an expertly designed and carefully built plow for use with the Farmall-H Tractor. It's the new No. H-86 two-way plow, built only for use with the exclusive Farmall "Lift-All" attachment. The "Lift-All" raises or lowers each plow bottom independently, or adjusts the depth, with the touch of a simple control.

The H-86 is ideal for irrigated fields and for hilly or

sloping land where dead furrows invite damaging soil erosion and washing.

We also have a new two-way plow for the Farmall-M. Come in and see us about it. It's called the No. M-188 and, like the H-86, is built for use with the "Lift-All" attachment. We'd like to tell you about our full line of McCormick-Deering plows for tractor and horse-drawn operation.

Several teachers of the local school drove to Portland for the week end.

A congregational meeting was held after services at the Community church Sunday and two new directors were elected for three year terms to take the places of the outgoing directors. Mrs. Florence Post and Walter Lay are the new directors, and John Fisher and Ed Barlow are the outgoing directors. The question of whether Mr. Walpole should be permanently installed as pastor was also voted and carried by a large ma-

majority.

Lewis Geiss, Mrs. Almon Geiss and daughter Joanne, Mrs. Harry Ford and Mrs. John Fisher and daughter Elaine drove to Pendleton Saturday.

The freshman return party was given Thursday evening in the form of a surprise wiener roast at the east end spillway. The freshmen obtained the use of a truck and went around and gathered up the members of the high school and took them to the scene of the party. Their great bonfire of weeds and brush could be seen for miles.

Prayer meeting was held at the home of Mr. and Mrs. John Fisher Thursday evening. The next meeting is to be at the home of Mr. and Mrs. Albert Baker.
