The Power You Want AT THE PRICE YOU WANT TO PAY

McCORMICK-DEERING FARMALL-A with "Culti-Vision"

● Farmall-A has power and capacity to do the work of four horses or mules at the cost of two. It brings practical horseless farming to many farms that have been handicapped by obsolete power.

Farmall-A ends body twisting and neck craning. With "Culti-Vision" you do closer, cleaner work because the rows are always in view. You'll like

these features, too: comfortable sponge-rubber upholstered seat; smooth, 4-cylinder engine with replaceable cylinders; 4-speed transmission with 10-mile road speed; variable governor; and complete line of direct-connected machines.

Ask us about the new line of Farmalls, including Farmall-A and the new, larger sizes, Farmall-H and Farmall-M.

HERMISTON UNION CHURCH C. Warner, Pastor

Sunday is Memorial Sunday. How fitting it is, on this day of worship. We not only draw aside from a busy life to remember what the Lord has done for us, but also to remember what our nation's dead have done for us, and in a special way remember those who have been near and dear to us.

The Sunday morning service will center around the thought, "Lest We Forget," and the evening service, "The Triumph of Christianity."
