There is still time to make arrangements for a haying demonstration with one of our John Deere power hay machines, such as a power mower sweeprake.

One of these demonstrations will prove how short and economical your haying problem really is.

The trend of all farming operations in this world of low farm prices, is for a cheaper and quicker operation and yet not lower the productive style that we have to maintain in order to get the maximum in crops from our land.

John Deere has endeavored to engineer their tractors and farm implements to secure this result, because they know that to sell their products they have to show results in the modern trend that farming has taken.

So call us and let us help you. We know we have shown some wonderful results to your neighbors.

## BOARDMAN NEWS

By Ruth Fisher

A transient was badly burned at Tom's Camp 2 miles west of Boardman Saturday night. A birthday party in honor of Mrs. Edith Hendricks was in progress when suddenly they heard screams from outside. On rushing out they found this boy with his clothing in flames. Mrs. Hendricks said he had been there in the evening and bought a light lunch. Then it seems he went out and crawled up the roof of a shed to sleep. It is supposed that turning in his sleep he ignited matches in his pocket and was covered with flames

Shopping for low cost insurance is about as sensible as an aviator saving money buying a tissue paper parachute. If he has to use it, nothing but the best is good enough. If he knew he would never need it, he would get along without it entirely.

You don't know what is going to happen. The safe thing to do is to let the agent of your local insurance agency give you real, intelligent insurance protection in a sound stock company, fitted exactly to your own need. Then you will be safe if the unexpected happens. Capital stock company insurance is standard protection.
