Streamline the Harvest with the NEW 4-FOOT COMBINE

by INTERNATIONAL HARVESTER

GRAIN TANK (low type) is also available. It is quickly unloaded by power without operating any other part of the machine. A pickup attachment can be had for gathering crops that have been windrowed and allowed to cure before threshing.

HERE'S the sweetest little outfit that ever hummed through a harvest field—Harvester's brand-new 4-foot McCormick-Deering combine for power-drive operation behind a 1-pow tractor. The new No. 42 has everything its big brothers in the Harvester line have, plus new features for work on small farms. And here's the best part—you can get it at a price that's easy on your pocketbook!

One man can harvest and thresh in quick time with this fast-traveling combine. It steps along at the rate of 8 to 15 acres a day. It saves on equipment, twine, and threshing expense. It saves grain by doing the job in one operation—eliminating loss that comes with shocking, stacking, pitching, and hauling. It gets rid of extra help—saving food and work in the kitchen. See us about it now.
