

Independence Day

Let us celebrate it realizing that for our freedom to be real we must have Economic Independence as well as Political Freedom. The one is not more important than the other.

We must as consumers 'declare our independence' from Big Business and Capitalistic control. We must highly resolve to own and control, by democratic processes, the businesses that furnish us with essential goods and services; to the end that we be freed from the power of capital to exploit and enslave.

Cooperative organization is the main force in this new trend of Freedom. Support the Co-ops—they are a bulwark of Freedom.

The study group of the Garden Club met on the last regular meeting of the club, June 28, and had an informal but very interesting afternoon.

The members brought flower arrangements which were copies of a flower picture taken from some garden book or magazine, and also some new and original arrangements.

One novel arrangement suitable for a Fourth of July lunch table decoration was brought by Mrs. F. C. McKenzie. It had been made on an oblong serving tray and was an American flag in the natural colors on a bed of soft green foliage. There were several outstanding exhibits.

There will be only one meeting of the club in July, on Friday, July 26.

Declaration of Independence

—what meaningful words, yet perhaps the most of us take them too lightly; perhaps they've become a glib phrase on the American tongue without full appreciation of their significance. Declaration of Independence, and today it may be redeclared in the face of world troubles which only serve to emphasize our need — and every people's need for independence in liberty, freedom of thought and personal happiness.
