CHRISTIAN SCIENCE CHURCHES

"LIFE" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 21.

The Golden Text was, "This is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent" (John 17:3).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Lord is my strength and song, and is become my salvation. I shall not die, but live, and declare the works of the Lord. The righteousness of thy testimonies is everlasting: give me understanding, and I shall live" (Ps. 118:119).

The Lesson-Sermon also included the following correlative passages from the Christian textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If it is true that man lives, this fact can never change in Science to the opposite belief that man dies. Life is the law of Soul, even the law of the spirit of Truth, and Soul is never without its representative. Man's individual being can no more die nor disappear in unconsciousness than can Soul, for both are immortal. . . . God, Life, Truth, and Love make man undying" (p.427).
