flagbearers. Colleen, an experienced
majorette, and Bonnie are both trans-
fers from other schools and are a
welcome addition to our own veteran
twirlers. Assistants to the regular
members of the squad include Bar-
bara Connor, majorette, and Barbara
Moore and Elamae Casper, flagbear-
ers.

Their recent performances show
the result of much practice. Flashy
new military uniforms, newly pur-
chased white boots, and prospective
batons will do more than a little to
add to the general appearance of the
group.

If you happen to hear the band
playing, see a flash of silver batons,
purple and gold flags waving in the
breeze and a gleam of white satin,
take a good look, because those are
our new majorettes.

ROOSEVELT LEADS IN STRAW VOTE POLL

(From the Bulldog)

The straw ballot conducted last
week by the Bulldog gave President
Franklin D. Roosevelt better than a
3 to 1 majority over Wendell L. Wil-
kie, his republican opponent. The fi-
nal tabulation showed 46 votes for
Roosevelt, 15 for Wilkie, and 7 for
Bill Belt, independent candidate in
1964.

If this is any indication of the sen-
timent of the public, the New Deal,
despite the third term hoodoo, will

once more ride to victory. But, ac-
cording to the best authorities, the
November election will be close. Mr.
Willkie's supporters forsee victory as
their candidate winds up a speaking
tour of Southern and Western states.

HOW DO YOU KNOW

His eyes are right?

The child who does not see well does not know it. Do you?
If you are not sure, don't gamble with his vision. Have his eyes
examined by a competent eye specialist. A scientific test will

John Deere Tractors Have Low Fuel Cost

Model H Tractor will operate with maximum fuel
cost of 7c per hour.

Model B Tractor with a maximum of 9c per hour.

Model A Tractor with a maximum of 12c per hour.

Compare these figures when thinking of the pur-
chase of a tractor, as they are vitally important to
you, during the years you expect to use the machine.

The purchase of a tractor is a major transaction
and after it is made, you expect work, and plenty of
hard work from your tractor, but if fuel and main-
tenance costs are too high, then it becomes a non-
profitable operation and you do not realize your full
dividend from a major investment, which the pur-
chase of a tractor really is.

In other words if you have to pay two dollars or
more per day for tractor fuel then you are just trad-
ing even for tractor power and are not realizing any
benefits from owning your tractor.

Just call us for a demonstration and let us prove
these facts.
