REDUCED PRICE ANNOUNCED FOR AMERICAN BOY

With the announcement of an enlarged and enlivened magazine, The American Boy, foremost publication for boys ten to twenty, also announces a reduction in its subscription and single copy prices. Hereafter The American Boy will sell for 10c a single copy at newsstands or for \$1.00 a year and \$2.00 for three years on a subscription basis.

In announcing a change in editorial policy, publishers of The American Boy assure subscribers that the established fiction heroes who have made the magazine so popular with young and old alike, will continue to tell of their adventures exclusively in The American Boy. Included in this group are Renfrew of the Canadian Mounted, Connie Morgan and Old Man Mattie, prospectors; Square Jaw Davis, railroad engineer; Johnny Caruthers, flyer; Jim Tierney, detective; Tod Moran, seaman; Alan Kane and Ted Dolliver, adventurers in science, and others identified exclusively with The American Boy.

However, with a larger magazine will come new fiction characters and an enlarged sports, defense and adventure program in the non-fiction field. Greater recognition will be given to outstanding boys the country over and an exceptional achievement will be rewarded with the boy's picture on the front cover. This feature was inaugurated with the November issue of America's outstanding driver of high school age.

Teachers, librarians, parents and leaders of boys groups recommend The American Boy enthusiastically. They have found that as a general rule, boys who read The American Boy regularly advance more rapidly than boys who do not read it. Through the leadership and sportsmanship of its fiction characters, boys are imbued with a desire to become leaders to develop the high ideals and courage the heroes themselves display.

To subscribe to The American Boy simply send the name and address of the one who is to receive the magazine together with proper remittance (\$1 for one year or \$2 for three years) direct to The American Boy, 7430 Second Blvd., Detroit, Michigan.

TOWNSEND CLUB NEWS

By Mrs. Joe Udey

A very important meeting was held last Friday night. A bulletin was read from the Oregon representative, that Oregon's quota for new members is 15,000 in the next 90 days, so each member will have something to do. All club members are determined to show the new Congress and President Roosevelt that we intend to see that they make our bill the law of the land, and we expect full cooperation from every member.

A flash from Dr. Townsend—"Action in the next Congress is my motto. I made a trip to Washington, D. C., and gave this message to our director of the Washington legislature bureau: 'I do not care under what name our program is enacted. They can call it the Roosevelt bill, Downey bill or whatever they want to. It makes no matter who gets the credit. We propose to give the Democratic administration a chance to put through our own bill under their own sponsorship under a different name, if necessary, but our organization will not allow any substitute bill and we will guard against having the Townsend Bill side-tracked by a substitute. I have no pride of authorship but I have a very real concern in the welfare of our people and I believe the time has come to forget rivalries and jealousies and get together for the good of the American people.'"

Notice—The dance committee wants to make a correction of dates that was in last week's news. Saturday, November 30 will be a benefit dance at Westland school and again at the community hall in Hermiston December 14 instead of the 7th.

Club meetings have been changed from the 2nd and 4th Fridays to the 1st and 3rd Fridays of each month.

WOMEN... AND ARITHMETIC

Which are really better at household arithmetic—men or women? Let's look at the question in terms of insurance.

What woman would carry only \$1,000 in fire insurance on furniture, clothing, etc., when it would cost several times as much to replace them? What woman does not know what a financial burden would fall on her if her husband were injured in an accident? Yet many men overlook these vital needs.

So here's a practical suggestion to husbands and wives. Don't guess about insurance... consult this agency for expert advice on which policies to buy—how much—and what to do in event of loss.

'Giving Grass a Chance'

The term "deferred grazing" has become popular among Oregon ranch operators, for it means improvement of grass by keeping livestock off at certain intervals so that it has a chance to reseed and rejuvenate itself. Under the AAA range conservation program, Oregon ranch operators have increased this grass improvement from 168,000 acres in 1937 to 1,340,000 acres in 1939.

POWER COSTS GO DOWN

OWNERS OF JOHN DEERE TRACTORS SAY THEY ARE SAVING AS MUCH AS \$1.25 A DAY BY BURNING LOW-COST FUEL

John Deere Two-Cylinder Tractors, burning low-cost fuels successfully and efficiently, are sending power costs down to new low levels in all sections of the country.

Users are reporting amazing savings on low-cost fuel alone. Many are operating their John Deere tractors for as little as 1-1/2 to 2-1/2 cents an acre in cultivating.

Measuring fuel economy on a dollars and cents basis—the way it should be measured—impartial tests show that five different makes of tractors with low-grade gasoline do only 71.6% as much work as a John Deere tractor with \$1.00 worth of "low-cost" fuel, and that nine other makes burning regular gasoline do only 66.6% as much work as a John Deere on \$1.00 worth of low-cost fuel.

These impartial tests furnish convincing proof that your fuel dollar goes farther in a John Deere. Come in and make us prove it.
