STANFIELD NEWS

By Mrs. Rose Hedrick

Mr. and Mrs. Charles Loop of Salem visited the latter part of the week at the Robert Sherry home.

Mr. and Mrs. Harold Wallace and son Wayne spent this past week in Portland.

Wallace Baker visited her parents Mr. and Mrs. F. A. Baker over night Friday, before returning to Spokane.

Mr. and Mrs. Lowell Baker of Spokane had dinner Sunday with the Bakers.

Mr. and Mrs. Harry Duvall and Joe Norton returned the latter part of the week from Missouri and were visitors at the J. W. Waid home.

Mrs. Melvin Barber and small daughter Peggy, after a month's visit with her parents the Dixsons, and other relatives, the Hughes and Barbers, returned to their home in Carbondale, Colo., Sunday.

R. F. Waid of Yakima and O. V. Gibson, relatives, were visitors at the J. W. Waid home Sunday.

Committees are hard at work getting ready for the Ladies Aid Christmas bazaar to be held on Saturday afternoon, December 14, at the Presbyterian church.

The Stanfield-Elgin unit met on Tuesday for their lesson on "Deserts." Mrs. Roscoe Meyers presided. Roll call, a favorite Christmas dish, was answered by seven members. In attendance were the leaders, Mesdames Ebert and Cooper of

Echo, and Mrs. Coleman, Astleford, Fisk, Richards, Childs, Winkle, Hedrick and Meyers. A beautiful centerpiece of holly and Oregon grape in a green crystal bowl lent a festive air to the luncheon, and a most enjoyable afternoon was spent.

Seen about our streets, Herbert Gillanders Jr. driving a new car. Also Mrs. Jake Rueber displaying a new car.

The large school bus in District 61 has a new driver, Marion Martin.

Schools are busy practicing parts for a community Christmas program to be given at the school building December 29, and their vacation will then extend over New Year's day.

BOARDMAN NEWS

By Elaine Fisher

The first league game of the basketball season was played on the home floor Tuesday night. The Boardman Yellowjackets defeated the Lexington Jackrabbits 11 to 20.

A carnival sponsored by the Boardman student body was held in the gymnasium Saturday.

The Ladies Aid held a bazaar in the Grange hall Friday evening.

Miss Ruth Fisher has returned home for an extended visit.

Al Geiss motored to Wallowa Monday on business.

Nels Kristensen and daughter Elizabeth motored to Heppner Saturday on business.

While experimenting with an electric saw Sunday, Ted Eckker cut his hand seriously.

Elmer H. Lierman of Oregon State college has taken Elmer Sullivan's place as agriculture instructor.

Historic Points Attract Visitors to South Wales

The coast of South Wales between Swansea and Tenby, on the western side of Carmarthen bay, is varied. There are parts of the coast where the limestone cliffs rise to a considerable height, only to fall away again to the sand flats of such tidal estuaries as are formed where the Loughor, the Burry or the Towy rivers meet the sea.

To the west of Swansea the Mumbles Head curves protectively into the bay. From this windy elevation the view across the bay toward Swansea and Port Talbot has as a background the chimneys of innumerable industries, says the Sunday Times of London. A canopy of smoke drifts slowly across the scene. Dimly, through the haze, rise the rugged shapes of the Glamorgan mountains.

But turn toward the west and follow the undulating path along the cliffs and the horizon is limited only by the headlands of Pwll-du head and Oxwich point. In places the cliffs give way to snug sandy beaches, such as Langland bay or Caswell, where the surf-bathing is good, or again in the wide sweep of Oxwich lying below the historic little village and castle from which it obtains its name. At Worms head the cliffs end and the flats around the river mouths begin. But beyond Pendine sands toward Sandersfoot and Tenby the coast rises again and reaches a wild magnificence where the National Trust cliffs at Lydstep overlook Caldy island.

All this stretch of coast appeals to the visitor because of its quiet charm. There are no great seaside resorts, but towns such as Tenby, Kidwelly, Llanelly or even Swansea, with their individual attractions, are excellent centers from which an interesting and historic hinterland may be explored.

OSC STUDENTS WIND UP LARGEST TERM IN SCHOOL HISTORY

Oregon State College — Oregon State students, 4159 strong, will wind up their class work this week and scatter to all parts of Oregon and the west for the Christmas holidays after being a part of the largest student body in the history of the college. Final exams are scheduled next week and the term officially ends December 21.

Winter term registration is scheduled for January 2, although juniors and seniors who pre-registered at the close of fall term will not be required to return to the campus until classes start January 3. New students entering for the first time will experience no difficulty in getting registered since a wide variety of courses are available.

TOWNSEND CLUB NEWS

By Mrs. Joe Udey

A very important meeting was carried on last Friday night in the Legion hall. The nomination committee gave a report and read the nomination slate. At the next meeting of the clubs which will be December 29, election of the new officers will be held, and all members are urged to be present, and visitors are always welcome. There is never any admission to our regular club meetings.

A membership committee was appointed and they are expected to put on an extensive drive. This committee is out to help win 15,000 new members in Oregon by January 1.

The dance committee reports that

the Hermiston stores are fixing a box of groceries to be used as door prizes at the benefit dance in the Community hall in Hermiston Saturday the 14th.

FOR ALL CLASSES OF TRAVEL

HOLIDAY ROUND TRIP RAIL FARES

FOR STUDENTS AND GENERAL PUBLIC

\$4.95

SUNBEAM Shavemasters

The New AC Model Close as a straight-edge and faster!

\$7.50

The Famous AC-DC Model

\$15.00

Both Models have the famous "475" comb and hollow-ground cutter.

Slick 1920 Model Carries the Mail

Six days a week for the last 20 years a museum on wheels has bumped along Forsyth county's rural roads in North Carolina.

The vehicle carries "Professor" T. E. Woosley, veteran rural mail carrier, along his route.

Back in the era of prosperity just after the World War, Woosley's "deluxe model touring car" was the king of the dirt roads.

Today it's nothing less than a museum, for it shows by vivid contrast the startling progress realized in the American automobile industry.

Flashy 1940 model beauties can purr past him and the occupants can turn and smile in a yoo-poor-man manner, but the "professor" is satisfied with his 1920 machine.

Service is what he puts a premium on, and he can't find any reason to complain. Since July, 1920, the old touring car has been faithful.

The speedometer broke years ago, but the known mileage is far more than 100,000 miles, and every day 59.3 miles are added.

Proof that the bus gives thoroughly satisfactory service is found in the route the professor covers with mail delivery.

This route is rough enough to be used as a testing ground for even the most durable new model car. But it has no bad effects on the "horseless carriage."

Check by Colored 'Hoppers'

If a Minnesota farmer finds a gold, violet or red grasshopper in his corn field he knows it's one of the 20,000 or more grasshoppers that the state department of agriculture painted and then turned loose over the state.

State entomologists naturally aren't solely interested in raising gayly colored grasshoppers. They want to learn the direction of hopper migrations.

Every now and then a batch of the colored hoppers appear in some section of the state. Whenever a farmer locates one of the colored flock he notifies the agriculture department.

The pests are sprayed with the lacquer of a chosen color, diluted with banana oil. Any of the various tints can be used.

Protective Insulation Board

The degree of protection from outside temperatures that any house can offer depends primarily not upon the strength or thickness of its walls but upon the insulating value of the material used in construction. For example, one inch of structural insulating board in the walls gives weather protection equal to that of 15 inches of common brick, 36 inches of concrete or three inches of lumber. One-half inch of insulation board will reduce the heat loss through walls and ceilings by one-third. The first layer of insulating board effects the greatest fuel saving, the next less, the next still less, and so on.

Drug Store Cowboy

There really is a drug store cowboy in Oklahoma City. All the messenger boys were on other errands when Miss Letha Scott, druggist, needed one in a hurry. Just then Tup Robertson rode up on his horse. "Tup, why don't you make this delivery for me?" said she. And Tup was off in a flash. It made such a hit with the customer that Miss Scott got two other boys with horses, 10-gallon hats and trimmings to carry her packages.

Complete Comfort!

... You, too, will "sing out" about 1941's most talked-of automobile development—

the new **FORD** ride
